	$758,551 49

The following extracts from the report are selected as of interest to the general reader:

Money Transfer Service.

The operations of the Department of Telegraphic Money Orders, which has been established less than three years, are highly satisfactory. During the last year it transferred—that is, received at one office and paid out at another—about $2,000,000, for which service the Company received a revenue of $80,329.86. Of this sum about $20,000 was for premiums, and the balance for tolls on the messages required in making the transfers. The revenue from this source during the preceding year was about $57,000, and the increase during the past year has been about 40 per cent. The increase in the number of transfers, however, was about 60 per cent., attended by a reduction of the average amount transferred in each case from $81.31 the preceding year to $61.83 during the past year. This reduction and increase indicates the growing popularity of the service. The receipt in small sums, at a large number of offices, of an aggregate of $2,000,000, and the payment of this amount at other offices, involving the handling of $4,000,000, has been attended by an aggregate loss to the company during the year, from errors and defalcations, of only $110. During the same time a larger sum has accumulated in the treasury of the company from cases where it was impossible to find either the transferee or the person making the deposit for transfer. This branch of the service is under the immediate charge of Vice President Mumford, who prepared the rules and regulations for the conduct of the business. In view of the success which has attended their operation, this specific acknowledgment seems to be due to him."

The number of messages transmitted during the last year was 16,329,256, being an increase of 1,872,424 (about 13 per cent.) over the preceding year. Deducting from the gross receipts, moneys received from other sources than for the transmission of messages, and dividing the remainder by the number of messages, it appears that the average receipt for each message was about 55 cents. As the charge per message is for a minimum of 10 words, the average message must contain more than 10 words; so that the average receipt per message is necessarily greater than the tariff fixed for a 10 word message. A uniform tariff of 50 cents per message of 10 words between all stations on the company's lines, without regard to distance, applied to the messages transmitted during the last year, would have yielded a revenue somewhat in excess of the actual receipts.

The tariff of rates now charged on the lines of the Western Union Company are but little above the average European rates. Considering the vast difference in the density of population, and the greater distances over which messages are sent in this country, and the cost of maintaining a greater length of line through sparsely settled sections, to reach the same number of people, and the higher cost of labor and of all material employed in telegraphic operations, the service in this country is relatively much cheaper than the average in Europe.

DETROIT.

Explosion on a Lake Steamer.

The Vessel Instantly Sunk.

A Large Number of Persons Killed.

DETROIT, MICH., October 22.—The Northern Transportation Co.'s steamer Brooklyn, bound from Ogdensburg to Chicago, exploded her boiler whilst coming up the river. The accident occurred about two o'clock. The effects of the explosion were fearful, instantly sinking the boat and killing a large number of persons. The steamer Cuba was a short distance ahead of the Brooklyn, and picked up nearly all of the survivors, who were landed here. The agents here state that there were only seven passengers on board. Others say there were at least ten. The crew numbered about twenty. It is thought at least half of those on board were killed.

The Killed.

The passengers killed are Mrs. Bobbin and child, of Oswego; a lady from Cleveland, and two Frenchmen from Ogdensburg, names unknown, as the steward's books are in the sunken wreck. The crew killed are John Morley, first cook, of Ogdensburg; second cook, unknown, of Oswego; Wm. Hillard, second engineer, of Ogdensburg; James Romaine, wheelsman; Michael Heuck and James Phillips, firemen; Cope Vincent and Mike Hanley, deck hands; Samuel Anderson, porter, of Rensalear Falls, N. Y.

The Saved

Passengers are Capt. Boardman, of Chicago, head injured and arm broken; James Muller, of Green Bay, seriously injured; F. W. Stevens, of New Haven, leg broken and head cut; Elly Manklin, of Lodi, O., shoulder sprained and cut in the head. The crew saved are Capt. Harvey Brown, uninjured; First Mate Daniel Rider, arm broken; Second Mate Abner Mellin, injured in leg; First Engineer M. Stoddard, fatally injured; wheelman Antoine Parker, slightly; lookout George Mead, uninjured; chambermaid Mary Brown, leg broken; cabin boy James Gibbons, unhurt; Amos Nelson, foot hurt; steward Wm. Plumsted, unhurt; Fred Volly, deck hand, slightly; two deck hands unknown.

The Brooklyn had a miscellaneous cargo, and was herself valued at $25,000. Some of the injured passengers say the boat was racing with the propeller Cuba, which had passed her a short time before, and that she was carrying a tremendous head of steam when the catastrophe occurred. Captain Brown attributes the explosion to low water in the boiler. The explosion tore her apart, sinking her almost instantly, nothing but her pilot house remaining above water. A tug was sent to the scene of the disaster at five o'clock, and returned at seven, not bringing any more people. None of the dead bodies have as yet been recovered. It is reported that one of the dead bodies is tied to a stake at Grassy Pond.

NEW YORK.

NEW YORK, October 22, 1874.

Republican Nominations.

The Republican Sub-Committee that was appointed at the Convention on Tuesday last, this forenoon elected Salem P. Wells for Mayor, and P. H. Jones for Register.

Union Coopers to be Discharged.

The principal boss coopers of the city yesterday informed their foreman that after Saturday night any of their employes who did not renounce the Coopers' Union would obtain no further employment from them. The effect of the affair will be to lock out all members of the Coopers' Society, numbering over 5,000 men.

Business Failures.

The *Revenue News* says Mackin & Co., bankers of Newark, N. J., have failed; liabilities $700,000. Howell & Co., clothiers, Broad and Market streets, Newark, are involved by this failure $200,000. Major Perry, of Newark, also loses a large sum. Mr. Bolen, a lawyer residing at Woodside, has lost a considerable amount. The failure is caused by over-speculating in real estate.

The *Commercial* says the house of W. H. Irving & Co., members of the Produce Exchange, and pretty extensively engaged in grain operations, have suspended. They claim to have made heavy losses during the past year, but say with the forbearance of the creditors will be able to resume business shortly.

Gen. Butler Sued.

Jasper K. Herbert has commenced a suit in the Supreme Court of Kings county to recover from General Benjamin F. Butler ten thousand dollars, being half of the legal fees in a cotton suit gained by the late Gazaway B. Lamar for the United States Government.

THE CAPITAL.

WASHINGTON, October 22, 1874.

The Third Term Question.

The *National Republican*, which has been advocating a third term for President Grant, says to-day: "The Presidency, during another term, would have but few attractions for him. It could confer upon him no further or higher honor. There is no reason, therefore, to suppose he desires it. On the contrary, his natural tastes and inclinations are known to be in the direction of domestic quietude and privacy."

Customs Receipts.

The customs receipts for the week were as follows: Philadelphia, $191,395; Boston, $296,288; New York, $1,902,940; Baltimore, $98,655.

The Jury in the Safe Burglary Case

was completed to-day, and is composed of seven white and five colored jurors.

Secret Service.

Major Geo. B. Chamberlain, United States Marshal at Atlanta, Ga., has been offered and has accepted the position of Chief of the southern branch of the Secret Service Department.

Resignation of a Railway President—Boston to be Made an Outlet for the Grand Trunk Railway.

CHICAGO, October 22.—It is rumored that J. F. Joy, President of the Michigan Central Railroad, has tendered his resignation, and has gone to Boston to confer with the directors as to his successor. The *Inter-Ocean* says that the Grand Trunk proposes to make its outlet at Boston, and that the combined lines form an opposition. Unless the company goes into the Saratoga arrangement its freight will not be forwarded from Buffalo, except at local rates. "We may be compelled to succumb," say the Grand Trunk people, "but we don't believe it will be a hard fight, and then this combination will not last for all time. Suppose we give our business all to one company, could it resist the temptation? We think not. The strong probability is that we will not go in. We can get along, and we are bound to. What we will do is to make Boston our outlet, and pay the local rates for the time being. The Dominion line of steamers now running out of Quebec are to run out of Boston, and the Grand Trunk thus makes rapid through shipments, and is depending on no other company for facilities."

Murder Trial at Fort Garry.

ST. PAUL, MINN., October 22.—A Fort Garry special reports progress of the trial of Lepine for complicity in the murder of Scott. Richot was sworn and examined. He recited the history of his appointment as a delegate with Scott and Black, and was about to state a private conversation which occurred between the delegates and Sir George and Sir John, when the Judge declared that he would not receive it. He asked for orders in Council and acts of Parliament in effect recognizing the Provincial Government, and the delegate's defense here broke down and could not produce the papers. Wood asked Chapleau if he was not endeavoring to prove that the Provincial Government was *de facto*, and thus establish the right to execute Scott. Chapleau admitted that this was his intention, and asked the Court to adjourn until to-morrow morning at 10 o'clock, remarking that this decision would bring the case to a close. The court was adjourned until then.

Masonic Grand Lodge of Ohio.

COLUMBUS, O., October 22.—At the closing session of the Masonic Grand Lodge today, the following brethren were reappointed to the offices attached to their names: William W. Cunningham, of Newark, R. W. Grand Orator; A. G. Byers, of Columbus, R. W. Grand Chaplain; Apollo M. Ross, of Cincinnati, R. W. Grand Marshal; James E. Stewart, of Springfield, W. Senior Grand Deacon; Edwin Morrell, of Columbus, W. Junior Grand Deacon; Jacob Randall, Grand Tyler. The officers of the Grand Lodge were then duly installed by Lucius V. Pierce. There has been no question of moment presented to the Grand Lodge, but the session has been one of harmony and unanimity among the brethren.

Grand Convocation of Knights Templar.

NEW ORLEANS, October 22.—Active preparations are being made for the entertainment of the Knights Templar, who are expected from all sections of the Union, to attend the Grand Convocation, commencing Tuesday, December 1. It is estimated there will be between 6,000 and 7,000 present. The session of the Grand Commandery will last three days. The first day will be the reception of the Grand Encampment, to be followed by a grand parade, grand banquet, excursions, &c.

LOUISIANA.

Affairs in St. Martinsville.

NEW IBERIA, La., October 22.—Captain E. T. King, who has just arrived from St. Martinsville, reports the arrest, between twelve and two o'clock night before last, of Chas. Hebert, at the Grand Palaceide Huval, by the Deputy United States Marshal; also reports the general belief that warrants are in the hands of the Deputy Marshal for the arrest of Colonel Alcibiades DeBlane, General DeClonet, Colonel Fournet, and other prominent citizens.

Why the "Hives" Withdrew Their Candidates.

NEW ORLEANS, October 22.—The Hives, in withdrawing their candidates, did not express preference for the Conservatives, as stated last night. In an address they say: In consideration of the present condition of political affairs, we, the Legislative and Executive Councils of the Hives, in joint session, deem it expedient to withdraw our ticket from the field, and to release from all pledges both our candidates and their supporters, in order that they may be untrammeled in the coming election.

A Colored Club.

The Third ward Conservative Colored Club now has one hundred and eighty members.

A Democratic Story.

The following special is from Democratic sources:

"SHREVEPORT, October 22.—On authority of General Merrill and Commissioner Levissee, we learn that warrants are preparing for the arrest of merchants and others, which will take place probably to-morrow. The *Times*, in an extra, advises submission to arrest by the United States soldiers, but advises parties so arrested not to give a bond. The card on which arrests are to be made is getting additional signatures to-day, and our people show no signs of weakening."

The Question of Naturalization.

The Attorney General's opinion of the legality of naturalization before the Second District Court will not be officially delivered till to-morrow, but he to-day expressed his conviction that all naturalized papers issued from that court since 1864 are null and void.

The *Picayune* says: "The question has been submitted to the District Attorney and to all the other judges, and there is only one idea on the subject. All the great legal minds this State has ever produced have failed to discover any illegality in the naturalization. It was left for our present Attorney General to spring the question just before the election. The Conservatives estimate the number of voters involved at 4,000."

Mourning for the Dead.

At half-past eight o'clock this morning solmn requiem high mass was celebrated in the Church of Immaculate Conception at the request of the relatives of the citizen soldiery who fell in the late conflict.

Prospective Arrests in Shreveport.

SHREVEPORT, La., October 22.—The question as to whether warrants were to be issued for the arrest of sixty-nine merchants who pledged themselves not to retain in their employ persons who support the Republican party in the pending contest was to-day settled in the affirmative upon the authority of General Merrill, United States army, commanding that department, and D. B. Levissee, United States Commissioner, who stated that the papers were being prepared, and the arrests would probably be made to-morrow. Since the first announcement on Monday of the intention of the authorities to make arrests the temper of the people has greatly improved, and it is not probable that any of the parties will endeavor to evade or resist. The parties interested have consulted several leading attorneys, who advise them that their pledge is not in violation of the Enforcement act, in that it does not threaten any one on account of race, color or previous condition of servitude, and that a general declaration to employ no one upon certain conditions furnishes no ground for a specific charge of intimidating any certain persons. Immediately after the authoritative announcement of Gen. Merrill and Judge Levissee, this morning, a pledge was again put in circulation and received one hundred additional signatures. These names include representatives of nearly every business establishment in the city. Copies of the pledge were also sent to the country, and are said to have received the signatures of planters in parts of the parish. It is not known yet whether any others than the original sixty-nine signers will be arrested or not.

AMONG OUR MILLS.

Matters of Interest to Iron Workers.

(From the American Manufacturer.)

IMPROVED FURNACES for melting glass have been placed in the works of Messrs. A. & D. H. Chambers, South Side.

THE iron firm of Kimbark & Co., of Chicago, who suspended some weeks ago, were indebted to iron manufacturers of this city to the amount of nearly $150,000.

THE Fayette *Monitor* says: The Connellsville Machine and Car Company have put up a fine power wheel press, which is another convenient device to their already well contrived works.

THE blowers at McKee's window factory, who run the works on the co-operative plan during the strike last season, have given it up, and are now working for the firm.

THE National Locomotive Works, at Connellsville, recently shipped a narrow gauge locomotive to the Galena and Wisconsin Railroad, and another to the Des Moines and Minnesota Railroad.

THE Pittsburgh Steel Casting Company are building a twenty-four foot Siemens gas furnace. With this addition to their present facilities they will have capacity to make a seven and a half ton casting.

THE first tin works in this country was erected at Wellsville, Ohio, about a year ago. The second works was built at McKeesport, a few miles above this city, on the Monongahela river, and the iron department was put in operation some weeks ago.

ONE of Kloman's patent cinder coolers has been erected at the Isabella furnaces and will be used with No. 2 when it is blown in. Some improvements have been made in this. The stays and guys are all below the level of the annular ring, instead of above as at the Lucy, and the cooler is moved around by the hydraulic crane that lifts the cinder from its place.

WE SOME TIME AGO stated that Jas. B. Young & Co., roll manufacturers, were at work on a machine of their own invention for straightening rounds and gas-pipe. We are now able to state that it has been perfected and that it thoroughly accomplishes the purpose of its invention. The machine is 18x18x18 inches, and will not cost over $300. One of them is being placed in one of our city mills, and we will soon be permitted to say more concerning it.

THE banks of the Allegheny between the Ewalt street and Sharpsburg bridges are rapidly becoming noted ground in the progress of American ironmaking. Here are the Millvale mill of Graff, Bennett & Co., where Mr. John I. Williams is achieving such success with the Danks furnace; the Isabella and Lucy furnaces, whose runs have astonished the world; and the new mill of Spang, Chalfant & Co., which when completed will doubtless be the finest mill in the country.

THE Lucy furnace has again taken the "broom" for largest runs. For the week ending Saturday, October 17th, it made *six hundred and forty-two and a quarter tons of pig* (642 784x2268); to be exact, 1,456,840 lbs. This is about 20 tons in excess of the best week's run of the Isabella, and excels by about the same amount the best week's work of any furnace in the world. In comparing runs, however, it it but fair to say that the Isabella is only 18 feet across the boshes, while the Lucy is 20 feet.

Nena Sahib Captured.

LONDON, October 22.—A special to the *Times* from India says Nena Sahib has been captured in Gwalior. He has been identified beyond a doubt by the Maharajah of Scinde, and is now a prisoner in the Maharajah's palace. A political agent has taken his confession.

The Indictment of Geo. Q. Cannon.

SALT LAKE, October 22.—As regards the indictment of Geo. Q. Cannon, the Congressional Delegate, for lascivious cohabition, under the territorial statutes, it is claimed that the Court dare not indict him under the polygamy act of Congress passed in 1862, because the United States statute of limitation bars all such prosecutions, and the Poland bill would allow a writ of error to the Supreme Court, whereas prosecution under the territorial law would not admit of such appeal. No more arrests have been made.

RELIGIOUS.

General Christian Convention.

CINCINNATI, October 22.—In the morning session of the General Christian Convention, in this place, yesterday, L. F. Green read the yearly report of the Sunday Schools. Rev. Joseph King, of Pittsburgh, delivered a lengthy address on foreign missions. Then followed an address by Rev. Graham, delegate from the Free Will Baptists of Chicago, on the subject of the union of the two bodies. A Committee of Reference was then appointed, to meet with a like committee from the Free Will Baptists. The afternoon was occupied in discussing foreign missions. The evening session was occupied by addresses from Rev. McCullough, James Challen, Rev. T. W Moore, and others.

Protestant Episcopal Convention.

NEW YORK, October 22.—The General Protestant Episcopal Convention resumed its sittings this morning. After religious services the House went into secret session. During the morning session a message was received from the House of Bishops, announcing the adoption of the following resolution:

Resolved, The House of Deputies concurring, that the following amendment of the Constitution be proposed in this General Convention and made known to the several Diocesan Conventions, viz.: That the sixth article of the Constitution be amended by the addition of the following clause: An appeal from the judgment of a diocesan court may be provided for by the General Convention.

The following message was received: Message No. 34. The House of Bishops informs the House of Clerical and Lay Deputies that it has adopted the following preamble and resolution:

WHEREAS, The diocese of Texas, by constitutional action of the Bishop and Convention, has for urgent and sufficient reasons declared a desire to establish northern and western limits on the northern lines of Lampasses, Coryelle, MacClellan, Limestone, Freestone, Anderson, Smith, Gregg and Marion counties, and on the western lines of Matagorda, Porton, Colorado, Fayette, Bastrop, Traviss, Burnett and Lampasses counties; and

WHEREAS, This Convention is sufficiently assured of the consent of the parishes lying northwest of the aforesaid limits to the proposed limitation of the diocese;

Resolved, The House of Clerical and Lay Deputies concurring, that this General Convention hereby signifies its consent and agreement to the limitation of the diocese of Texas, as hereinbefore described, and that so much and no more of the State of Texas as lies within the aforesaid limits is to be hereafter regarded and known as the Diocese of Texas.

The former message was referred to the Committee on Canons, but no action was taken upon the latter.

During the morning session a letter was read from Bishop-elect Seymour, in which he said this investigation had developed charges against him, the circumstances of which were known only to himself and others not members of the Convention. They could only be disproved by himself and them, and he asked permission to speak before the House. He deprecates the idea that he ever sought to be elevated to the Episcopate. It was decided this letter should not be accepted, and permission to speak before the House was not granted.

At four o'clock the vote on Dr. Seymour's confirmation was taken, the doors leading to the House being locked and guarded. The vote was then taken by dioceses, and Dr. Seymour was not confirmed. In the clerical vote forty-one dioceses were represented, and resulted as follows: Ayes 19, noes 10, and divided 12, the latter being counted negative. In the lay vote there were but forty dioceses represented, the delegates from Arkansas being absent. The result was ayes 13, noes 18, and divided 9. By the Constitution of the House it is necessary that a candidate for a bishopric receive a majority vote of the dioceses represented in the Convention.

It was learned from a delegate that Dr. Seymour's defeat was due principally to the letter written by Bishop Cox recently, and papers written by Professor Buell, of the New York Theological Seminary, in which he (Dr. Seymour) is charged with allowing Father Grafton, an extremist, of Boston, to have access to the students in the Seminary of New York.

The Convention adjourned till to-morrow, when it will again go into open session.

The vote in Rev. Dr. Seymour's case counted by individuals shows a clean majority in his favor. It was only the peculiar mode of voting by diocese and orders that secured his defeat. A letter read to the House on Wednesday by the Bishop of Western New York did Dr. Seymour great injustice, and a searching investigation will be at once made, which, it is expected, will fully vindicate Dr. Seymour and place him still higher in popular favor. After a discussion of eight days, a discussion most extraordinary in the history of the American Church, not one charge against him was sustained. He was found to be both sound in doctrine and pure in life. The Diocese of Illinois will probably re-elect him in two or three months, and then his case will be before the Bishops and Standing Committees, in whose hands he is sure of confirmation. The refusal on the part of the House to hear him in his own defense increases the sympathy felt for him. A letter expressive of undiminished love and confidence in Dr. Seymour is now being signed, and it will receive a majority of the signatures of the Bishops, clergy and laity. It is a matter of peculiar interest that the delegation of Western New York voted for him, notwithstanding the opposition of Bishop Cox. The clerical vote of Iowa was for him, and it is known that a majority of the Bishops are in his favor.

Presbyterian Synod of Northern Illinois.

CHICAGO, October 22.—In the Presbyterian Synod to-day Dr. Charles Elliott was appointed assistant counsel for Swing with Dr. Frame. He was, he stated, opposed to the verdict of the Presbytery. The reading of the records of the trial was then up during the afternoon. Dr. Patton submitted his argument. He stated his reasons for bringing the case before the Synod, that the Presbytery had been guilty of five things, namely: of hurrying to a decision, of prejudice, irregularities, mistake and injustice. In the evening session he added an exhortation to the members of the Syond, adjuring them to remember what was involved in the decision, and to act worthily of the trust imposed on them.

Mr. Frame, in reply to the argument of Patton, in a short and weak speech, in which he merely directed the attention of the Synod to the record of the proceedings, which had been read in their hearing. Dr. Elliott followed in a long speech. He treated the subject in a rather factious way, and his remarks caused considerable laughter at times. He produced extracts from Swing's sermons to show his belief. At the conclusion of Dr. Elliott's argument it was decided to allow each member three minutes to express an opinion before adjournment. Only one gentleman availed himself of this opportunity, Mr. Patterson, who spoke in an excited way of the trouble this case was producing in the Church. He was interrnpted, and the Synod abruptly adjourned till to-morrow.

Maryland Jockey Club Races.

BALTIMORE, October 22.—The Jockey Club races were continued to-day. The first race, one mile, for two year olds, was won by Aristides; Betty Ward, colt, second; Aniella third. Time 1:44¾.

The second race, free handicap sweepstakes, two miles and a half, was won by Bollankeel, Shylock second, Bannerette third, Harry Bassett fourth. Time 4:31¾.

The third race, mile heats, was won by Grinstead, Botany Bay second, Josie B. third; Survivor, the favorite, distanced. Time 1:45½ and 1:45½.

The fourth race, a match between Mollie Darling and O'Neill, was won by the latter in 1:46½.

Excitement in Nebraska over the Pardoning of a Notorious Character—Gov. Furnas Burned in Effigy.

OMAHA, October 22.—There is considerable excitement throughout the State over the act of Governor Furnas having pardoned the notorious forger and swindler J. L. Weber, which was done despite the earnest protestations of the citizens. Furnas was burned in effigy at Fremont last night. The papers of the State, without regard to politics, denounce the act.

The Steamer Esperanza Burned.

BATON ROUGE, October 22.—The steamboat Esperanza was burned last night at 12 o'clock at Profits Island. The boat and cargo are a total loss. The chambermaid of the boat was lost. No other lives were lost.

The Grant Locomotive Works of Paterson, N. J., in Trouble.

NEW YORK, October 22.—The Grant Locomotive Work of Paterson, N. J., are understood to be in trouble. A contract for fifty locomotives for the Russian Government was had, and conditions attached as to the time of delivery, which the Grant Company found it impossible to comply with, and work thereon has, in the meantime, been suspended. The company show a large surplus over their liabilities, but in a very unavailable shape, and the future of its affairs is dependent altogether upon the leniency of the Russian Government as to the interpretation of the contract. The creditors of the company will be asked, in the meantime, for an extension of time until communication can be had with the Russian Government. It is said that the company discharged a large number of men and will probably close their shops altogether for the present.

NENA SAHIB, the leader in the mutiny, or rebellion in British India, in 1857, is reported to have been captured at Gwalior. A large price was offered for his capture, when the rebellion ended.

PRESIDENT GRANT arrived in the city yesterday, and spent the night at the Monongahela House. He appears in excellent health, notwithstanding his long and wearisome journey. He will proceed to Washington this morning.

THE *Post* has never denied four important things: That the Democratic party created in this State a debt of $40,000,000; that the Republican party has reduced this debt at least $19,000,000; that the Democratic party is openly committed to Free Trade and Repudiation; and that the Republican party is committed to Protection to home industry, and national good faith. And these are the questions that this election turns upon.

THE gunpowder explosion on the canal in Regent's Park, London, noticed in these columns at the time, proves to have been particularly destructive to a kind of property that is not easily or quickly restored. The region desolated was an artist centre,—many of the most celebrated artists of the day having built themselves houses there, and filled them with paintings, stationery and objects of *vertu*, the whole representing priceless treasures, that money cannot replace. Thus the loss is particularly to be deplored.

THE *Herald* and *Tribune* see everything in the light of Third Termism. Ohio voted on that particular subject alone; Indiana likewise. Iowa they have not exactly heard from; but all things considered, if the President would come out in a formal speech, communication, or permit an interview in which he would denounce the Third Term business, all would yet be right. How lovely! "Won't you come into my parlor?" said the spider to the fly. If the President will only walk into the parlor of these graceful spiders, all will be right again. Isn't it a little strange that journals which so completely dominate the public sentiment of the country failed to elect Greeley?

THE *Post* intimates that there were no manufactories in operation when the Democratic State Convention was in session here, and uses this as a reason why they forgot to say anything on the subject of protection. *Did they not know they were in Pittsburgh?* But we happen to remember, as we were present during the sessions of the Convention, that not only were our manufactories in operation, but the fact was referred to by one of the gentlemen who was addressing the Convention, just as Mr. Witte came in with the platform. Yet they deliberately avoided reference to the subject of protecting home industry. It was not an oversight, but a deliberate purpose to insult our workingmen by coldly passing them by. The Democratic party has shown in this State, and in this city, that it heartlessly cares nothing for the working classes. Remember that fact at the polls.

THE stagnation of trade, that is claimed to exist alone in this country, and which the Democracy attribute to "Grant's administration," is not confined to this county. The quarterly accounts of British revenue, just published, show a heavy decline as compared with the corresponding three months of last year. The decrease in customs alone was $2,200,000, and the net decrease in all the items was $6,804,225, or very nearly eight per cent., and there was an increase in only two items, unimportant in both cases. Much of this decline in revenues can be accounted for only in the declining trade of Great Britain. Practically, the whole of the loss in the year ended September 30 has taken place in the quarter just expired, and this is apparently a precursor of a further decline in the coming six months. If the rate of decrease of the last quarter should be maintained to the end of the fiscal year, the revenue would reach but $363,200,000, whereas the budget estimate was $372,125,000. Indeed, a rate of decline amounting to only five per cent. will cause a deficit at the end of the year if the expenditures equal the appropriations.

Those who are half persuaded to believe that the panic and its results are attributable to the administration of President Grant, should pause and inquire whether he governs England. If not, may it not be just possible that the panic did *not* result from his administration?

WE regret to see the *Post* unhappy. It is troubled with the hallucination that this is a charter election, in which city officers are to be elected. Hence it deals in purely local issues, and asks the people to believe that they are the true questions before us. As it is not a municipal election, but one that will result in the election of members to the Legislature and to Congress, the simple question is, what will those we are about to elect have to do, and wherein will their actions interest us? If it can be shown that they will have to deal with the expenses of our city Government, we will be ready to consider that subject. But that issue will come up when we elect members of Councils. When that time arrives, we propose to make a close and thorough examination of this subject, that the people may know the exact facts. But now the people should remember that if Democrats are elected to Congress, they are pledged to free trade, and committed to the destruction of our National currency. We can meet expenses if we have money to do it; but with free trade and a debauched currency *we must face ruin, suffering, bitter, exhausting hunger.* This is the chalice that is presented to our lips. And we affirm it and challenge denial,—that if the Democracy have the Legislature, they will with absolute certainty elect a Free Trade Senator, and a man in thorough sympathy with all the views of the Democratic party as to destroying the currency. Are we prepared for this? If not, vote for Negley, Bayne, and the Republican legislative ticket.

WE have no purpose to discriminate between the candidates on our State ticket, as we firmly believe every man of them is superior to his competitor on the Democratic ticket. Putting principles aside, and considering the candidates on purely personal grounds, we are clear in the belief that the Republicans are specially deserving of the support of the party, and that they will be elected. But we see a notice of R. B. Beath, our candidate for Secretary of Internal Affairs, in the Philadelphia *Press*, which brings out so strikingly the contrast between him and General McCandless, that we reproduce it: "Colonel Beath, the Republican nominee for Secretary of Internal Affairs, and the present Surveyor General, was a gallant soldier during the war, and has supplemented his military services by a civil record which challenges comparison with that of any man who has held office in this State in the last fifteen years. His administration of the Surveyor Generalship has been faithful, honest and marked by extraordinary intelligence. A prominent officer of the Grand Army of the Republic, the soldiers' orphans of the Commonwealth have had his special care, and he was instrumental in checking many abuses which had crept into the system by which they are provided for and educated. Unlike his opponent, General McCandless, he did not break his sword in the face of the enemy, nor believe that the private station was the post of honor, and we believe that his old comrades and the civilians during the late war who admired his gallantry will join in electing him by a majority which will effectually cure McCandless of his hankering after the spoils of office."

WORTH HEEDING.

The Democracy are very restive at the idea of being called Repudiators of the National debt. They need not be. There is nothing unlikely in it, aside from all the utterances of their party on the subject. Will the *Post* deny that in 1856 their National Convention declared that Congress had no power to charter National banks? Or that it reaffirmed this in 1860? Will it deny that Pendleton and other Democratic leaders fought in Congress against legislation favorable to the issue of greenbacks, and the charter of National banks? Will it deny that their course was applauded and sustained by the Democratic press of the country? Will it deny that the National Democratic Convention in 1868 resolved in favor of paying the National bonds in the very greenbacks the issue of which they had declared to be unconstitutional? And will it have the hardihood to deny that *this is Repudiation?* What does it mean, then, when it declares that its party does not favor Repudiation? This very year, the platforms of the Democracy in Ohio, Indiana, Tennessee and Missouri were for Repudiation, in effect.

This being the fact, we ask the working people of our city to think of the influence of such an act, were the Democracy empowered to do it. Putting aside the effect of it on credit abroad and our honor at home; what would its effect be right here? In 1857 the State banks all over the country broke, one after the other. That is, they practically repudiated their own notes,—for it matters not, in effect, whether refusal to pay is willful or involuntary. What was the result? Those notes were valueless,—they had no more purchasing power than so many blank pieces of paper. Those who had them, could not buy bread with them. Suppose our National debt were repudiated? Suppose the greenback were deprived of its purchasing power? The result would be that no man would have a medium of exchange with which to make purchases and great misery must ensue. Do we want this? We submit that this is the exact tendency of what the Democracy say they will do. If they do not mean what they say they are falsifiers. Will you trust power to men who will deliberately lie?

A NEW POLICY.

The Pennsylvania Railroad Company, as the result of the investigation had by the Committee of Investigation, whose report was recently made public, has quietly changed several features of its policy, and has, we think, in this made great and valuable improvements. A very important feature is that of having the stockholders, every year, decide upon the general policy of the road, the information necessary to a proper judgment having been communicated to them in advance of the annual meeting. The effect of this will be to cause stockholders to feel a deep interest in the affairs of the road, and to seek to intelligently understand the principles upon which it is managed. We do not know of another road that is managed on this plan, —the general course being to leave all questions of policy to the Board of Directors, the stockholders being merely called upon to elect the Board. If they were dissatisfied, the most they could do was to change the Board; and even this was a more difficult thing than is generally imagined. Officers of railroads are usually entrusted with more or less proxies, and as the vote represents but a small proportion of the entire number of shares owned, the few large stockholders control the election. Hence, stockholders may be said to have, practically, no control over the management of the road at all.

But the officers of the Pennsylvania Road, and its directory, have accepted in advance, the proposition offered, that the stockholders vote on questions of policy, merely referring to the directory the details of the policy determined upon. They propose to carry into effect the various suggestions made by the Investigating Committee, so that when the Spring meeting occurs, the stockholders may know, from actual experiment, what is, and what is not valuable. Hence the new departure will form a feature of the Spring meeting of stockholders. Putting aside the question whether large bodies of men, —for these annual meetings are largely attended,—will determine wisely, we can see manifold advantages in the plan. It will cause stockholders to feel a deeper interest in the road, and thus lead to efforts to advance its welfare, such as are not usually made by this class of persons. The interested good will of those who hold the stock is a large element of strength, and whatever else comes of the plan, we are satisfied that the new administration of the Pennsylvania Road will realize this.

Another feature that we believe to be very excellent is that of carrying forward large improvements on the current resources of the road. This avoids the creation of new debts, and will enhance the value of the road, its bonds and stock. The Pennsylvania road has a business so vast that its tracks are burthened with the swift recurring trains necessary to move it. Only the most complete and rigid system of telegraphic oversight of trains, and accountability of officials prevents accidents. Yet these are so careful and complete, that it is admitted to be the safest road in America for travel. It needs, and can find large employment for two additional tracks, and these were being prepared for, when the panic came. Work was suspended; but in resuming it a question came up that involved broad issues of policy. This was—shall we use the assets of the road, of which several millions dollars worth are lying idle, for the expense of the new tracks, or shall we issue bonds? Or, to state it differently, it is the question—shall we pay as we go, or run in debt? The determination reached was to pay as they go,—and the work of preparing for the additional tracks is now rapidly progressing on this policy. The importance of this course cannot be overestimated. Were bonds issued, the road would represent no increase of net value when the new tracks are laid,—it would be paid for out of the proceeds of the bonds. A dollar of debt would stand against every dollar of property accumulated. Hence the bonds and stock of the road would not be increased in value. But assets that were not productive, and that were quietly lying in the vaults of the company, exerting no influence to its credit, are transferred into new tracks and material value, thus increasing the market standing of the bonds and stocks of the road. Such a policy is manifestly in the interest of every stockholder, and makes more secure the bonds that are held at home and abroad. We are fully of the opinion that this policy will advance the interests of all concerned, beside being a feature in railroad policy which, should it become general, will contribute to the improvement of railroad securities everywhere.

THE PITTSBURGH DAILY GAZETTE comes to us in new type looking as fresh and clear as readers' eyes could ask. We commend the GAZETTE heartily to our readers—and this commendation is due, not only for its able advocacy of correct Republican principles, but for its early and reliable news, its correct reviews of commercial and financial affairs, and its thorough and successful study to meet all the wants of merchants, manufacturers and business men generally. Whatever is hurtful to state or society it fearlessly condemns; and whatever is good and correct, it faithfully upholds.

POLITICAL NOTES.

THE Congressional Conferees of Chester and Delaware counties have finally renominated Hon. Washington Townsend.

HON. J. B. MCENALLY has accepted the nomination as a candidate for Judge, in the Twenty-fifth District, composed of the counties of Clearfield, Center and Clinton.

THE Republican conferees of Clearfield Senatorial district met in Bellefonte last week, and nominated E. P. McCormick, Esq., of Lock Haven, as a candidate for State Senator.

THE Hon. John Quincy Adams declines the Democratic nomination for Senator in the IId District of Norfolk county, Mass., giving as his reason the preposterous length of the legislative sessions.

A DISGUSTED old line-back voter at Ottumwa, Iowa, put in a ticket which read:

For general principles
General Jackson
For Congress
Don't care a dam—they all steal anyhow.

FIGURES will not lie, we are told, but they disclose some startling facts, sometimes. During the thirty years of Democratic rule in Arkansas 26 school houses were built, while in four years of Republican sway 1,140 school houses were built, and 100,000 children received instruction. Here is a fact for our Democratic cotemporaries to ponder.

DEMOCRATIC journals think that the North has no reason to complain of outrages at the South. It would have none, if the perpetrators were ever punished. But the men who murdered Miss Julia Hayden, a young colored girl who taught a school in Tennessee, have just been released on $3,500 bail. And now Governor Brown wants all the assassins delivered over to this sort of a State authority for trial. Justice sleeps in Tennessee.

THE death is announced of the renowned basso, Carl Formes, once so popular in this country. He was a native of Baden, Germany, born at Mulheim in 1818. He received a thorough musical training at Cologne and Vienna, and first appeared in opera as *Sarastro*, in the "Magic Flute," in 1842. He was engaged later at the Imperial Opera in Vienna, as first basso, where he remained several years until, in 1848, having taken part in the liberal movement of that period, he was obliged to quit the Austrian dominions. In 1849 he sang in London at the Royal Italian Opera, Covent Garden. In 1857 he visited the United States, and appeared in New York, Pittsburgh and other cities, and it was only when failing health compelled him to withdraw from the stage that he disappeared from the public view. He returned to Europe nearly two years since, and never revisited this country.

GRAPHITE, or plumbago, is believed to be anthracite coal which has been subjected to the most extreme degree of mineralization or metamorphism, being frequently found in igneous rocks. It is often produced in blast furnaces, and is found in cast iron. It consists of almost pure carbon with a slight admixture of iron.

ADVICES from New Washington, Crawford county, Ohio, report 2,500 acres of marsh, a few miles from that town, on fire. A HATEFUL paragraphist says: "Whenever a person sitting alongside of a woman in the street-car gets up to leave, in nine cases out of ten the woman will immediately try to spread herself so as to cover the vacant seat as well as her own. "FIGARO" criticises an ancient custom. "Our traditions require that if one divides a peach with another he should proffer by preference the half to which the stone adheres. Why? But this is a problem that cannot be solved until some one tells the origin of the usage as first stated.

LEPROSY is said to prevail to a considerable extent in the little village of Tracadie, at the mouth of Miramichi river, Canada. The inhabitants of the village, who are all of French descent, have established a hospital for the worst afflicted of the citizens. The disease is understood to have been brought to Tracadie by a French vessel, which was wrecked off the coast some eighty or ninety years ago, and on board of which was a quantity of clothing from Asiatic ports.

THE city of London proper—that is, the region ruled by the Lord Mayor—has a revenue of its own, which comes from curious sources. All the coal received in the city pays a duty of one shilling one penny a ton, nine pence of which goes to the Thames embankment and metropolis improvement fund, and four pence to street improvements. From this source last year, £381,249 were received. Then there is a duty on wine which goes to the same use as the nine pence coal duty.

EXEMPLARY damages have been given by a Baltimore jury, in a case in which a man shot another by accident. The defendant playfully took up a gun, entertaining the common idea that no gun can possibly be loaded, and playfully pointed it at his friend. As it always happens in such cases, the gun was loaded, and he shot and almost killed his friend, only in fun of course. The jury showed their appreciation of such genial humor by giving a verdict for $6000 damages. A few more such verdicts will have the effect of lessening the frequency of similar accidents.

SEVERAL years ago the Councils of New York, directed that medals should be prepared and presented to the veterans of the 1st Regiment, New York Volunteers, who served in the Mexican war. About 40 of these medals were mislaid. They were found about two weeks ago in an old safe, and they have been ordered to be given to the persons to whom they were intended. Five of these veterans, Captain John Cook, of the Adjutant General's office at Albany; David W. Dyckman, of the Sanitary Squad; Peter Waters, George F. Strenger and Jacob Childs, appeared and were presented with the medals. The balance are awaiting claimants.

THE "MAN OF SCIENCE" has met with a new difficulty—the want of a name for himself, which, in a single word shall express his aims and pursuits without confounding him with a multitude of followers who are not, strictly speaking, "men of science." The word sciencist and "scient" have been proposed as substitutes for "the American barbaric trisyllable 'scientist.'" It is believed that the "man of science," viz.: one who rejects all but real knowledge for the foundation of theories, would be particularly happy even with such strange names, if it only distinguished him clearly from "the scientist," or one who adopts knowledge in general as he receives it from the "scient" or "sciencist."

THE Secretary of the Treasury has decided that the navigable waters of a State, as distinguished from the navigable waters of the United States, are not subject to the steam vessel-inspection laws of the United States. This is founded on a ruling of the Supreme Court, which defined navigable waters of the United States as "waters which form in their ordinary condition by themselves, or by uniting with other waters, a continuous highway over which commerce is or may be carried on with other States or foreign countries in the customary modes in which such commerce is conducted by water." Applying these tests to Winnepesaukee Lake, Wisconsin, Fox river, Wisconsin, and other similarly situated lakes and rivers, the Secretary of the Treasury decides that such waters are not subject to the inspection laws of the United States.

AN honest old Kentucky farmer from the country gave his recollections of a late hot spell as follows: "It was so dry we couldn't spare water to put in our whisky. The grass was so dry that every time the wind blew it flew around like so much ashes. There wasn't a tear shed at a funeral for a month. The sun dried up all the cattle, and burned off the hair till they looked like Mexican dogs, and the sheep all like poodle puppies, they shrank up so. We had to soak all our hogs to make 'em hold swill, and if any cattle were killed in the morning they'd be dried beef at dark. The woods dried up so that the farmers chopped up seasoned timber all through August, and there ain't a match through all the country—in fact, no wedding since the widow Glenn married old Baker, three months ago. What few grasshoppers are left are all skin and legs, and I didn't hear a teakettle sing for six weeks."

THE ROSS CHILD.

An Unfeeling Joke Perpetrated.

Notwithstanding the most strenuous efforts put forth, nothing has yet been heard of the whereabouts of little Charlie Ross or his abductors, nearly five months now having elapsed. In spite of the fact that the father and mother of the little boy are nearly crazy over his loss, there are those unfeeling enough to make jokes at their expense. One of these, the most brutal, perhaps, was recently perpetrated in front of the Adams Express Company, Philadelphia. On the pavement stood a box labelled "Robert Swan, New Castle, Del." At about 9 o'clock in the morning a crowd was attracted to it by a suppressed, yet distinct cry of "Let me out; I'm dying." The box was seized and turned on its side, and the voice which it was now plainly evident came from the inside, cried, "Oh, don't. You hurt me. Let me out." The reporter, who was present, may now be left to describe what followed in his own way: "Excitement was at a fever heat, and threats of lynching the party who had shipped the box were freely uttered. In a few moments the whole neighborhood became aware of the fact that the lost boy, Charles Ross, had been found in a box at the express office. About the express office things were assuming a highly interesting phase. Some shouted to burst open the box, others exclaimed it would be illegal. Many hooted the idea of stopping to inquire into its legality, and added, 'the boy will be dead before you get it open.' Finally a man appeared with an ax and went at the box. You could hear the leaves on the trees flutter overhead, and every stroke the ax made was distinctly heard on the corner below, while, 'I'm dying; hurry,' came from the inside in a faint voice. The top is loose; another stroke and off it flies. A hundred pair of eyes anxiously peer into the box. * * * Sold! and such a sell is not upon record, while but a few, the 'initiated' only, imagine for a moment that all the furore was created by the quiet little gentleman leaning calmly against the awning pole, twenty feet away and uttering not a word. It was the 'King of Ventriloquists.'" It was no wonder that poor Mr. Ross lost his reason. He and his family have been treated with savage cruelty. The refusal of this unfortunate gentleman to submit for publication a series of letters from kidnappers, full of the most disgusting personalities, was made the basis of cowardly and heartless slanders. A gentleman connected with the staff of a Springfield paper, who was permitted to examine some of the anonymous letters, promptly made a sincere and elaborate defense of Mr. Ross.

"A Precious Wife."

The energy with which the average lovely woman pursues and defends any cause she believes in, is one of the most engaging things in the world. It was peculiarly graceful the case of a colored lady in Memphis who barricaded her house against her husband the other day and began an action for divorce on the ground that he had voted the Democratic ticket, thereby showing a desire to replace in slavery herself and her children. The only other instance of this sort of mental strength we remember is that of Madame Ducis, a woman of a fairer race and the wife of a poet who lived and died when this century was young. It appears from M. Ducis's diary, lately published, that he received corporal chastisement from Madame for not sharing her opinions as to the respective merits of the Bourbon and Bonaparte dynasties. He notes a highly emphatic occurrence, and discovery to which it led: "There has been an awful scene with my wife, who called me a wretched hound, a ragged scoundrel, and then beat me with all her might. This has shown me what a dreadful temper she has." The poor gentleman's fear of his spouse seems to have continued after her death, for he wrote a very poetic epitaph for her tombstone, describing her as "a precious wife."

The Maurerites in Brazil—Rise and Extermination of a Religious Sect.

[From the London Daily News.]

For some years past a small portion of the vast flood of emigration from Northern Germany has been directed to Brazil, and in the Province of Porto Alegre whole settlements of the race have been founded, which, until recent events disturbed them, were flourishing enough. They had advanced so far as to have their own local newspaper in that resonant language which, according to Arndt, makes any land where it is spoken part of Germany; and the particulars now before us are transmitted direct from the *Deutsche Zeitung* of Porto Alegre, the paper in question. The settlers were almost universally of the Prussian State or Evangelical Church, and were rent by no political or religious dissention. They were distinguished by their attachment to the old Fatherland they had left; and the subscription sent from the colony for the benefit of the sick and wounded in the war of 1870-'71 astonished those who knew how young and struggling a community it was collected from. All went well with them, in fact, until this summer, when their domestic peace was suddenly disturbed by the pretensions of a certain Jacobina Maurer to Divine inspiration, and her claims to be worshiped by all mankind. Those pretensions would have mattered little of themselves, but Jacobina was one of a large family in the village of Ferrabraz; and her relations first, and then her neighbors, successively adopted her views, and declared themselves true believers with an ease which history tells us was not displayed in the history of Mohammed. On what proofs the claims of this German edition of Joanna Southcote were founded does not appear. But it is certain that her followers gave her the title of "Christussin," or "the female Christ;" that a regular worship was established for her; and that her first convert or confederate—it is hard to say which,—Hans George Maurer, was in due form appointed her high priest. This person appears to be a man of some intellect, and remarkable ambition; for he not only brought over his neighbors to the new faith, but conceived the idea of imposing it on the whole settlement first, and then on the world at large, by force of arms. Under his guidance, the Maurerites, or Mucker, as they were nicknamed by their opponents, carefully armed themselves, and stored up abundance of ammunition. It was not until these preliminaries were thoroughly complete that they declared in the course of last June their solemn purpose, and summoned the nearest of the settlers to join the new Church forthwith. Attempts at enforced conversion of course produced violent opposition, and this was repaid by the Maurerites with open plunder and ill-usage as well as by threats of death. As they numbered, including the women who bore arms, a determined band of over fifty adult, there was no hope in the individual resistance of scattered settlers; and in a few days the unconverted inhabitants of the district were all seeking shelter in Porto Alegre, while their homesteads were stripped and laid waste by the orders of the prophetess. Volunteers were now enrolled to the number of one or two companies, but it was thought better to wait for the arrival of the Government troops who were asked for, than to attempt an advance into the bush unaided; for the fanatics were familiar with the ground, and were known to be better armed than their adverseries, and prepared for a desperate defense.

In July the expected forces came, provided with field guns and rockets, and a general advance was made, but apparently with extreme caution. By the 18th, however, the fanatics were driven in on a position they had carefully entrenched around a large house, of which they had formed a keep. The light guns, as well as the rockets, entirely failed to dislodge them, and it was only after a very prolonged skirmishing that the works were carried with a rush. The defenders then fell back on their keep, and, when this was fired, escaped from it, with some loss, into the bush behind, in which they had secretly prepared another strong position. For the time it was not thought well to follow them to their new fastness. In reconnoitering it on the 21st and 26th there were two more severe skirmishes; and, though in each of these Maurer's followers had the advantage, the German volunteers being on one occasion abandoned by the troops who should have supported them, the numbers of the sect had now been gradually worn down by repeated casualties. One prisoner was taken who revealed the fact that fewer than twenty of the desperate band were left. On the 2d of August their last stronghold was surrounded, and carried by overwhelming numbers, though with considerable loss to the assailants. The demand made previously that the Maureites should lay down their arms was sternly rejected, and they died fighting to the very last, the prophetess herself being actually bayoneted through the body of one of her devoted followers, who was striving to screen her, while she encouraged the rest not to yield. Only Hans George Maurer and one other of the band, Jacob Fuchs, were missing, who are supposed to have deserted their companions before or during the assault. It adds an additional touch of horror to this catastrophe to know that the young children they had had with them are not accounted for, and to hear that it was reported that they were all slain not many days before by Jacobina's command, a story which is supported by the fact that the body of one has been discovered buried with its throat cut close to the miserable hut which was the prophetess' last shelter. The havoc caused by the extinct sect during its short sway over the outlying settlements is so serious that it is stated that it will take years to restore the colony to the prosperity it was enjoying before this extraordinary outburst of fanaticism brought misery to its members.

Sure Preventive to the Freezing of Water Pipes and Accidents of Similar Nature to Water Closets.
We beg leave to offer to the public our
Patent Automatic Water Closet,
which is Anti-freezing and Inodorous. It is the most durable Closet in the market, for the following reasons: It will not freeze. It is strictly self-acting. It does not cause any re-acting and bursting of pipes. It is free from all obnoxious odors, and therefore will improve the sanitary condition of our cities. It has no valves to get out of repair and leak.
With our valuable improvement obnoxious cesspools in yar's are dispensed with, as direct communication is made with the sewer pipe.
The public are invited to call at our salesroom, and examine this valuable improvement in operation, where its great advantages can be seen at a glance, or send for circular containing full particulars.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, October 23, 1874.

There was only a light demand for money at the banks yesterday, and it was promptly supplied. The reaction in mercantile activity noticed for several days past in New York has reached here, but is not seriously felt. It is regarded as merely a temporary affair, of no permanent danger, and that it affords no reason for apprehension. The only local financial event is the probable closing up of the Allegheny Valley Railroad settlement. There are about $200,000 of claims yet unrepresented in the list of signers to the agreement, and these are, part of them, merely negligent, while some are expectant of better terms. We have already reminded this class of the unwisdom of such a course, and do not remember an instance where persons pursuing this course have been benefited by it. There is great anxiety on the part of creditors to have the matter arranged, but no purpose of yielding to the unjust demands of the few.

—Earnings and expenses of the Philadelphia and Erie Railroad Company for the month of September, 1874:

Gross earnings	$336,149 81
Gross expenses	206,802 54
Net earnings	$129,347 27
Net earnings, nine months, 1874	$677,387 61
Net earnings, nine months, 1873	220,860 30
Increase, 1874	$456,527 31

Should the business of the company for the remaining three months of the year prove as favorable as that of the preceding nine months, there is reason to hope that the net earnings for the year will reach nearly or quite a million of dollars, an increase of about $600,000 over the receipts of 1873. The annual interest on the funded debt this year is about $1,100,000. The floating debt, which is quite large, it is hoped may be met in the near future from claims which the company hold against the Allegheny Valley Railroad Company. The monthly returns make a very good show, but the Philadelphia and Erie has been in the past so loaded with expenditures and debt on unproductive works that it will necessarily take considerable time to reach profits for dividends.

—The latest quotation for standard silver in London was but 57 3-4 pence an ounce, which is said to be absolutely the lowest price touched in the last twenty-five years. The yearly average price between 1850 and 1872 was never under 60 pence, and it fell but three-fourths of a penny below that average last year. The London *Economist* remarks on this subject that "whether the change is mostly caused by the demonetisation of German silver, or by the increased production of the mines throughout the world, or by the falling off in the production of gold, or by all causes combined, it is a fact of no slight economical importance, and the course of the market during the next few weeks must be looked forward to with some interest, to see whether the fall will continue." This movement has also its interest for us. The precious metals are the cheapest commodities we can export, but silver is so low in price in England that gold may soon again be preferred for exportation.

—There are indications of revival in business in various directions. The Boston *Advertiser*, speaking for that city, says "in some departments of trade there is a decided improvement," and that "a noticeable feature this season is the promptness with which payments are made, a large number of buyers anticipating the date of payment by ten to twenty days, so that while the profits are small there is no prospect of their being reduced by losses from bad debts.

—The recent discussion of State, county, city and town debts in the United States has brought out the fact that twenty-two States prohibit the loan of State credit or money to corporations for internal improvements or any other purposes, six States virtually prohibit the creation of a State debt for any purpose whatever, and nine States prohibit the engagement in any work of internal improvements in the name and at the expense of the people.

—According to the returns of the Department of Agriculture the condition of the cotton crop has deteriorated during September in the Carolinas and Alabama, and improved in Georgia, Texas and Arkansas.

—The report of the Western Union Telegraph for the last fiscal year shows a loss in net earnings of over a quarter of a million of dollars.

—The debt of the city of New York on the 1st of September last is stated at $126,505,189, being an increase within the last three years of $32,581,607.

NEW YORK, October 22, 1874.

Money, after loaning at 4, closed at 3@3½ on call; prime mercantile paper 6@7½. Sterling was steady at 485 for sixty days and 488½@488⅝ for sight. The customs receipts were $276,000. Gold was steady at 110⅛@110¼, closing at 110¼. The borrowing rates were 1 to 3, and the carrying rates 1, 2 and flat; time loans ⅛@¼ for use, thirty to ninety days. The Assistant Treasurer disbursed $14,000. The clearings were $29,000,000. Governments were active and strong. State and railroad bonds were strong, with large business in the former. Stocks opened firm and advanced ¼@⅜. Later there was a general falling off of ½@⅝, and 1 per cent. in Wabash, which was especially attacked. At noon the market was very strong, the highest prices of the day in some instances being current. In late dealings prices declined ¼ to ¾, and in some stocks the lowest quotations of the day were made. The greatest decline was in Lake Shore and Union Pacific. The advance early in the day induced some of the bears to cover, and when the purchase ceased the market dropped off. The sales to-day aggregated 130,000 shares, of which 8,500 were Western Union, 4,000 Pacific Mail, 3,000 New York Central, 12,500 Erie, 35,000 Lake Shore, 26,000 Union Pacific, 5,500 Northwest common, 12,000 Wabash, 1,800 Boston, Hartford & Erie, 10,000 Ohios, and 2,000 C. Condition of the Markets at Home and Abroad.

PITTSBURGH DAILY MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, Oct. 22, 1874.

If general business is not as active as it was expected it would be, there is satisfaction in knowing that it is being conducted in a safe and prudent manner. Merchants, as a rule, buy what they need and can pay for; expenses are being reduced wherever they are deemed unnecessary, and, in a word, the affairs of the industrial and commercial world, are fast settling down upon a substantial basis. Retrenchment and economy are the order of the day; overtrading, which was so common prior to the panic, and which there is no doubt was the main cause of it, is carefully avoided, and confidence is slowly but gradually being restored.

APPLES—Continue to come in freely, and the market is quiet, but prices are unchanged, ranging from $1.50@2.50 ₩ barrel, according to quality and condition.

APPLE BUTTER—In kegs, 60@65 ₩ gallon.

BEANS—Dealers generally report the market dull, but with a light stock and limited receipts, prices are still sustained; mediums, $2@2.25; navies, $2.40@2.50 ₩ bushel.

BUCKWHEAT FLOUR—4½c ₩ lb.

BUTTER—There is a very fair demand, especially for the better grades, but the general tone of the market is not as strong as it usually is at this season of the year, and prices are scarcely as firm as they were a couple of weeks ago. Prime to choice roll selling at 33@35; medium to good, 25@30; common, 12@15. Solid packed is dull, as it is not wanted now for table use, having been supplanted by roll.

CHEESE—There is a continued steady demand, and with regular jobbing sales, the market is firm at the recent advance; 16½@17 for Ohio and 17½@18 for New York Factory. Ohio Sweitzer, 16 to 18, as to quality.

CRANBERRIES—Selling at from $10@15 ₩ bbl. as to quality.

CHESTNUTS—Continue to arrive freely, and with stocks accumulating and holders generally anxious to realize, prices are weak, although without quotable change, as compared with yesterday, $2.50@3 ₩ bushel.

EGGS—The market, if anything, is a shade firmer, as the receipts have slacked off somewhat, but prices are no better; may be quoted at 22@23 for fresh, the most of the sales at 22. Pickled selling at 17@18.

FLOUR—The market continues quiet and dull, and devoid of any new or important features worthy of special notice. Spring wheat flours, $6@6.25 for Wisconsins; and $6.50@6.75 for Minnesotas; red winters, $6@6.50; white $6.75@7.25. Rye Flour, $5.75.

GROCERIES—Trade in the grocery line continues steady—the demand for all the leading staples is confined entirely to supplying immediate requirements, as operators, wholesalers as well as retailers, are adhering closely to the hand-to-mouth policy, carrying no more stock than is absolutely necessary to keep up their business. In regard to values there have been no important change within the past day or two. Coffee is firm but quiet; with a very light stock in first hands. The demand for Sugars has fallen off considerably within the past week or two, as it always does at the winding up of the fruit season.

GRAIN—There is still some little inquiry for Wheat, but the supply is fully equal to present requirements, and prices remain as last quoted: Penna and Ohio red at $1.12@1.15; and amber and white at $1.18@1.20. The Oat market, as noted in our last report, is firmer, but the market is well supplied, and prices are not quotable higher; 57@60, as to quality. The Chicago market has stiffened up considerably within the past few days, and another "corner" there, it is belived, is contemplated. New ear Corn continues to come forward freely, but with an increased demand there is no accumulation and prices, if anything, are firmer, as it is improving both in quality and condition; selling on track, by the car load, at 63@65c, and choice might bring 1@2c additional. Old ear is dull, as the new has taken its place, consumers being unwilling to pay the difference in prices. Old shelled is also quiet and dull, notwithstanding it is in light stock here; may be quoted at 84@86, as to quality. Rye is quiet and nominally unchanged; $1@1.05. There is very little doing in Barley.

HAY—The market continues overstocked with receipts to baled, and prices are weak but unchanged, ranging from $16 to $20 ₩ ton, according to quality. The feeling begins to prevail, however, that the market has touched bottom, and this is strengthened by the fact that it is cheaper here relatively than in the west, our chief source of supply.

ONIONS—Selling at $3@4 ₩ bbl.

PROVISIONS—There is a continued steady local trade with no essential change in prices. A Chicago paper, under date of yesterday, says in regard to Lard: "A number of the "shorts" have settled their trades for October on the basis of 15c ₩ lb. A New York firm is reported to be still short about 1,500 tierces and intend to deliver the lard. It is rumored that they have the lard now en route from Liverpool, and intend to have it in Chicago before the maturity of the contract. About 250 tierces are now on route from New York."

POTATOES—Continue to come forward pretty freely, and the market is weak, but prices are not quotably lower; quotable at $5@90c ₩ bushel on track, by the car load. Sweets $3@3.50 ₩ bbl for Baltimores, and $4@4.50 for Jerseys.

POULTRY—Live chickens, by the coop, 50@65c ₩ pair, according to size.

SEEDS—There is not enough doing in any kind of seed to establish quotations.

TALLOW—Country, 7@7½; city, 8@8½.

CATTLE.

There has been quite a reaction since the date of our last report, and the market to-day was much more unsatisfactory than during any preceding day this week. For this there were various reasons, to some of the most prominent of which we shall refer. The arrivals continue liberal, which taken in connection with the fact that the demand fell off, under the influence of unfavorable advices from the East, had a depressing effect, and, besides, buyers generally had bought about all they wanted yesterday, so that there were quite a large number on sale, with little or no demand. Trade was fair on Tuesday and Wednesday; common cattle, it is true, were a shade lower, as there was an oversupply, but prime shipping steers were scarce and sold readily at last week's rates; to-day, however, the market was badly demoralized, and we are satisfied that even for the kind in question, had there been any such on sale, the prices current during the early part of the week could not have been obtained. The reports from all quarters were unfavorable to sellers. Chicago and Buffalo were reported dull, overstocked and lower, while dispatches from New York to-day reported prices off ½ a cent on best and ⅞ to 1 cent ₩ lb on common, and market badly demoralized. The Philadelphia men bought rather sparingly, in consequence of reports of a big "run" at Baltimore, as whatever cattle are left over at the place last named on Thursday are usually sent to Philadelphia, to be marketed on the following Monday. The sales for New York were also light, as might be expected, in consequence of the very unfavorable advices from that point. Country dealers were also backward about taking hold, and the majority of them no doubt wished that they had held off longer, as they could have got their cattle much cheaper to-day than during any preceding day this week. We reduce our quotations all around, as will be seen by the following:

QUOTATIONS.

Prime to extra 1,400@1,500 steers	6.25@6.50
Medium to good 1,200@1,300 steers	5.50@5.75
Good 1,000@1,100 steers	4.50@5.00
Good feeders, 900@1,000 lb	4.00@4.50
Stockers, as to quality	3.00@3.50
Bulls as to quality	2.50@3.25

HOGS.

The market for this class of stock has been exceedingly hard for some days past; prices, as compared with this day week have declined from ½@1c ₩ lb, and sellers, as a matter of course, have been losing heavily. During the past 24 hours there has been little or no demand for Philadelphia hogs, since, notwithstanding the supply of this character was light, it was in excess of the demand, the best evidence of which is that prices during the time in question have declined 20 to 25c ₩ cwt; quotable at 6⅝@6½, whereas sales were made yesterday at 6¾ to 6⅞, and the corresponding time last week, if we mistake not, at 7½. Yorkers are bringing from 5½@6c, according to quality. Some operators were pretty confident this afternoon that the market had touched bottom, that there will be an improvement within the coming forty-eight hours; they expect the arrivals to fall off largely during the time in question, and, besides, it was reported that the advices from New York were more favorable, hence there is a possibility, if not a probability, that their expectations may be realized. However, the general outlook indicates that prices are destined to go still lower, notwithstanding the report of a short crop, as packers generally say they will not take hold at anything like present rates, and if they adhere to this determination, a further drop is almost inevitable.

THE PACKING SEASON.

The Chicago Packing & Provision Company were buying hogs to-day, probably intending to commence packing to-morrow. Other packers have placed their houses in readiness, and by the first of November the season will be in full blast. Hogs are arriving more freely and prices are rapidly settling to a low range. One year ago hogs were selling at $4.15@4.60, but with the present high price of corn, there is but little prospect of values declining to this range this season.—*Chicago Inter-Ocean.*

SHEEP.

The "run," as noted in our last report, has been much larger than usual, taking the past two months as a basis of comparison, but with a diminished demand the market has been slow and unsatisfactory to the selling interest, especially as regarded common stock, of which the supply largely consisted. Prime fat sheep were not plenty, the proportion of this character being comparatively light, hence prices were sustained, but the lower grade were generally quoted 20 to 25c ₩ cwt lower. The Philadelphia buyers took hold very sparingly, the purchases for that market, we were reliably informed, only footed up some twenty cars, against 42 cars last week. The demand for New York was also less active, and upon the whole the market was unsatisfactory, although the best grades brought fully as much as they did last week, but it was because the supply was very meagre, and not of any increase in the demand. To-day the market was very dull, and with buyers nearly all full and quite a number unsold, the outlook was anything but encouraging for sellers; the probability is that the most of those remaining unsold this afternoon would have to go on in first hands, and there is no inducement to go any further East, as the indications are that both New York and Philadelphia will be overstocked. Extra 100@110 lb fine wool quotable at 5¼@5½; 90@95 lb, 4⅞@4¼; 80@85, 3¾@4; 70@75 lb, 3@3½. Erisman reports the following purchases:

3 cars	110 lb Indianas		5.50
2 "	100 lb "		5.00
5 "	95 lb fine wool		5.75
1 "	90 lb "		4.50
1 "	95 lb "		5.25
4 "	75@80 lb "		4@4.75

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, Oct. 22, 1874.

The Crude market continues quiet and unchanged—immediate shipment was offered to-day at 90c. The receipts have fallen off very much recently; we do not believe that they have averaged much over one thousand barrels ₩ day this month, whereas prior to that time they averaged from 5,000 to 6,000 bbls ₩ day, and these very light arrivals are good evidence that Pittsburgh refiners are buying very sparingly. Refined is also dull and neglected; there has been so little done within the past few days that it is difficult to give quotations; Philadelphia delivery quoted nominally at 11⅛ to 11¼; Baltimore at 11⅛ to 11⅛; New York at 12 to 12¼, on cars here, to go to Baltimore, 9 to 9¼. There are no orders on Baltimore account, and refiners are refusing to ship to Philadelphia at the prices bid, because they do not begin to cover actual cost. It is not expected that the export trade will be very heavy during the balance of the year, as it is not usually so, but our refiners are hopeful of doing much better in 1875 than they did in 1874, as by that time the pipe lines, now in process of construction, will have been completed, and the cost of transportation greatly reduced.

The Barrel market continues very dull, but prices have undergone no recent change; countries, $1.30; city make, $1.40.

New York Produce Market.

NEW YORK, October 21.—BUTTER—Receipts for the week, 29,854 pkgs; do last week, 22,128; do same week last year, 21,119 do. Exports past week, 466 firkins. There is a weak tone expressed throughout the trade, and we hear the opinion frequently given that Butter has been pressed up too high for a healthy state of trade. There has been certainly a depressed feeling current since receipts have been pouring in so heavily. Thirty thousand packages even for an October week makes a rather staggering total, and with the reluctance with which buyers meet sellers there is a growing and an anxious disposition on the part of the latter to realize, even if they have to accept inside figures. A good deal of low bought, or stock that cost 33@35c in the country, is now arriving, and its owners have the inside track for sales of any wholesale character. For State butter in the sales we hear the outside line of rates is hardly quotable, the very choicest lots being 45c in a small way. The high prices have cut off a good deal of the usual package trade for family use. This has been a serviceable feature in the disposal of nice little lines of fresh Fall made for several years past. There is scarcely any demand for common or even fair grades of State, and dealers in Western have already marked down quotations. There are a good many lines of Western here that were expected to bring at least 28c, but even these, with commoner grades, are neglected, as they are too high for shipment and not good enough to suit the local trade.

CHEESE—Receipts for the week, 53,928 boxes; do. last week, 61,712 do; same week last year, 64,508 do. Exports past week, 18,614 boxes; do last week 29,236 boxes; same week last year, 37,928 do. Gold closes at 110⅛. Cable quotations 60s for Liverpool and 70s for London. The cheese trade is quiet; shippers are operating very moderately. Holders, however, are firm, notwithstanding the fact that stock is piling up to some extent. Shippers are making bids for the fine late August and September cheese, but they are a shade below sellers views, especially with the late reports from the country markets. The home trade makes a fair show of activity, and pays 16¼c for fine State stock. Low or Fair grades of cheese are scarcely looked at. A good many lines of that class are pressing for sale, and if the stock could be relieved of them seller, would accept prices greatly in buyers' favor. At Utica the market on Monday was dull at 15½ to 16¼c for fine and fancy, and Little Falls, same day, the market was reported brisk at 16@16¼c for fine Factory, and 15@15½c for fair do. Dairies ranged at 14@16c. The New York market closes firm at the improved quotations for best stock.

EGGS.—Receipts for the week, 8,122 bbls; do last week, 8,646 do; same week last year, 8,152. The market has ruled pretty steady during the week, and to-day shows a better feeling with a trifle advance in prices. For limed eggs there have been bid 20@21, holders ask 23. Western stock is not running attractively in quality this season.—*Tribune.*

New York Wool Market.

NEW YORK, Oct. 21—The demand is comparatively moderate thus far this week, notably so from manufacturers, who are unwilling to buy stock not urgently needed at current quotations. In view of the unsatisfactory course of the market for Woolens. The offerings of really desirable grades, particularly of domestic Fleece, are on a limited scale, and holders are reluctant to entertain bids not fully up to asking rates. Hence business is devoid of animation, and the market is somewhat unsettled as to values. The poorer qualities and broken lots of stock are weak in price and not easily placed without concessions. Sales have been reported since our last of equal to one hundred and forty-five thousand pounds Domestic Fleece, in lots, at 53@57 cents; 53,500 lb Unwashed stock at 30@35c; 5,000 lb Washed at 50c; 64,500 lb Scoured, within the range of from 50@87c; 20,000 lb Combing, part at 65c; 2,000 lb Oregon and 125 bales Australian on private terms 320 pkgs and 28,000 lb Domestic Pulled at 40@50c; 15,000 lb Black and Black Pulled at 23@46c; 10,000 lb Georgia at 41c; 281 bales and 128,500 lb California Spring at 25@35c; 205 bales and 24,500 lb California Fall, mainly at 24@26c; 47,500 lb Texas at 21@28c, and 250 bales Donskoi, on the basis of 31@35c, currency. The latest advices from Boston and Philadelphia are of a livlier trade.

*Below bench mark.

GEORGE H. BOHR, Sergeant, Signal Service, U. S. A.

The stage of water last evening was about 15 inches, according to the marks. Weather growing warmer, and more favorable for rain. A dense fog hung over the city during the greater part of the day.

The Messenger is announced to take her departure for St. Louis on the first water.

—The Memphis *Appeal* says:—"Captain John Cowden, who has been searching after treasures in the shape of old wrecks, in front of the city, for some time past, reports having found the wreck of a steamer below the elevator, on which is a battery of five boilers, but nothing to show where they came from. Near at hand is the wreck of a small steamer, in the hold of which is one large boiler. So far, he has been unable to find out the names of the steamers, but is quite sure of doing so while the work of raising them is going on. We are glad to learn of the Captain's good turn of luck, and hope it will realize him a handsome sum. He has spent a great deal of money in similar undertakings, which have always proved losing operations."

—The Nashville *Union and American* says:—"Steamboating on the Cumberland has nearly played out. Before the war there were ten or twelve regular boats between Nashville and New Orleans, and packets running to Memphis, St. Louis, Paducah and Cincinnati, and all well sustained by a paying business. But now all this is ended. Notwithstanding there has been a good stage of water in our river for the past fifteen days, not a single boat has put in her appearance during that time at the city wharf."

—The St. Louis *Democrat* of Wednesday says:—"Capt. Joseph Kinney yesterday sold to Capt. J. B. Kinney the steamer Kate Kinney and barge Noble for $20,000 cash. The new owner has taken command, and backs her out to-day for the South. The barge, loaded with coal, will be taken in tow and left at Helena. This is a sale by father to son, and the price is not an indication of the value of the property. Capt. Kinney would not have sold the boat and barge to any other person for $40,000.

—The following is from the same paper: "Low water threatens the Upper Mississippi. Freight for New Orleans continues decidedly scarce, although every boat loading receives some every day. But for Vicksburg and way points there was a rush all the afternoon to the Anchor Line wharf-boat. Rates are unchanged. The John Kyle drawing six feet, large, went hence to Cairo without trouble."

—The Cincinnati *Gazette* of Wednesday says:—"Ohio river coal was sold here yesterday at 10c afloat. Kanawha coal is held at 11c afloat. Pittsburgh coal is nominally held at 13c, but there is none on the market afloat.

—A. Ward Robinson, river editor of the Cincinnati *Evening Times*, was one of Mr. Donaldson's passengers in the balloon that ascended on Tuesday evening.

—It costs $3 to transport a ton of oil cake from Memphis to New Orleans.

HOME NEWS.

Republican Meeting.

The Republicans of Sharpsburg held a meeting last night, which was largely attended, and at which addresses were delivered by Col. Bayne and others. The Republicans of that district will give a good account of themselves at the next election.

Sad Accident.

On Wednesday morning a freight conductor met with an accident at Collier's station, on the Pan Handle Railroad, which resulted in his death. The train left this city about three o'clock, and proceeded safely to the point above named, when the engineer failed to sound the alarm whistle on crossing the bridge, as was the custom. The timbers of the bridge struck Mr. Killson, who was standing on the caboose, and threw him to the ground. The engineer of an express train saw him lying upon the track, and fortunately stopped in time to prevent his being mangled under the wheels. He died from his injuries in a few hours, after which his body was removed to this city.

Historical Records Mislaid.

The attention of our citizens is invited to the following statement: The Pittsburgh Historical Society had been in existence some years prior to the breaking out of the late rebellion. The excitement of *passing* events made all forget the details of *olden* time. Application has been made by two or three persons to see documents that were known to be deposited with the Society. It was generally supposed that the papers were deposited in one of our oldest banks, but an inquiry upon most of these institutions has failed to reach any of these. A tin box about thirty inches in length by fifteen or eighteen inches in depth or height was used as a depository by the Secretary, (the last one being Daniel L. Eaton), who died some three years since at Washington. Bishop Upfold, Mr. N. B. Craig, the former Presidents, are also dead. If any citizen knows any thing of this box or any of the records and will communicate to Hon. Thos. J. Bigham, late Vice President, Pittsburgh, or to Isaac Craig, Esq., Allegheny, he will reward a service to the public.

PRESIDENT GRANT IN THE CITY.

On the Way Back from the Wedding—Quiet Reception of the Distinguished Visitors.

Yesterday afternoon President Grant, accompanied by his wife, Mr. and Mrs. Borie, Miss Borie, Mr. Alex. Sharpe and Gen. O. E. Babcock, arrived in the city on a special train from Chicago, whither they had been attending the marriage of Col. Fred. Grant. On their arrival at the Union Depot they were driven to the Monongahela House, and as Pittsburgh is not often favored with a visit of any length from our Chief Magistrate, a public reception was talked of, but the entire party was too much wearied by the long ride for any of them to be inflicted with a ceremony of that character. Comparatively few people were aware last night that the President was in the city, his arrival having been so quiet and attended with so little ostentation that but few heard of it. He was called on by a few of his friends, among them being General Negley, District Attorney Reed and Marshal Hall, but nothing of the nature of a public reception was held. The party will leave for the east at 7:25 this morning, on the day express over the Pennsylvania Railroad.

PREPARING FOR THE CONTEST.

The Republicans of the Seventh Ward in Council—A large Business Meeting Last Night—Arrangements made for the Future.

A meeting of the Republicans of the Seventh ward was held in the Franklin street school building last evening, with Mr. William Dalglish in the chair, and Mr. T. P. Witten as secretary. After calling the meeting to order, a report of the Joint Committee from the Seventh and Eighth wards was called for. In reply they stated that satisfactory arrangements had been made for a mass meeting, on the corner of Webster and Fulton streets, on next Saturday evening. The report was accepted.

The Finance Committee reported progress.

The following communication was read from Mr. Day, a colored speaker, saying that he would be present to address the meeting on Saturday night:

HARRISBURG, PA., Oct. 21, 1874.

TO JAMES ONSLOW: Certainly I will be with you. I will leave here on Friday morning at 4:15.

WILLIAM HOWARD DAY.

On motion of Mr. Musgrave, the Committee of Arrangements were instructed to have posters and notices put up announcing the mass meeting.

Mr. Butler moved that the Vigilance Committee of the different districts be instructed to meet next Tuesday night. Carried.

After discussing different minor points, the meeting adjourned to re-assemble on next Saturday evening, at the corner of Webster and Fulton streets.

SHOOTING AFFRAY.

Attempt to Kill a Man at a Liberty Street Livery Stable—The Party Arrested—Held for Court.

An attempt was made yesterday morning between nine and ten o'clock to kill Alex. Drane, an hostler at Bradley's livery stable, No. 417 Liberty street, a short distance from the Union Depot. A carriage containing James Robinson, alias "Big Jim," Thomas Irwin, and a man named Benedick was driven up to the rear door of the stable, but before the occupants could get out the driver jumped down from his seat and making his way into the stable encountered Drane and told him to be on his guard, as the men coming in were on an evil errand. The party then entered, and Benedick going up to Drane asked him if his name was not Drane. He got for an answer that such was the case, and then, by way of rejoinder, he hit Drane a fearful blow in the mouth. The latter started to run toward the front of the stable, seizing a shovel for defence as he ran. As he reached the office door he saw Irwin, it is said, hand Robinson a revolver, and as he was about entering the office but before he could close the door, Robinson fired at him, but the ball missed its mark and entered the casing. Robinson ran out on Liberty street, where he was embraced by Officer Mooney, Irwin was found reclining in the carriage and Benedick was unearthed by Officer Quirk in Malatesta's saloon. The trio was marched off to the Central Station House, where they remained until four o'clock yesterday evening, when their cases were heard by Acting Mayor McMasters, resulting in the discharge of Irwin and the others being required to furnish $2,000 bail each for Court, and in default thereof be committed to jail. Drane is unable to explain the assault made upon him and says that he never met the parties before the shooting. It is said that about two o'clock yesterday morning they called at the St. Lawrence Hotel, where he boards, and inquired for him. He declined to see them, and they departed. An hour later they again returned, but Drane stated they could see him at the Liberty street stable in the morning. He made an information against them, charging them with felonious assault and battery.

OBITUARY.

Death of Oldham G. Craig.

We received yesterday the startling and painful intelligence of the death of Mr. Oldham G. Craig, in a foreign land. Mr. Craig was the youngest and last surviving son of Major Isaac Craig, of the Revolutionary army, brother of the late Neville B. Craig, Esq., of the Pittsburgh bar, and for many years editor of the GAZETTE, and uncle of Mr. Isaac Craig of Allegheny City. He was born in Pittsburgh March 14th, 1800, and was probably the oldest surviving native of the old city. He was named for his kinsman Col. Oldham, a distinguished officer of the Virginia line in the Revolution, who was killed at St. Clair's defeat, Nov. 4th, 1791. Mr. Craig for a long time held the position of Teller in the Bank of Pittsburgh. Some ten or twelve years ago he removed to New Brighton, Beaver county, Pa., where he resided until September last, when he started with his son-in-law, Rev. Dr. Ely, of Philadelphia, to visit his oldest son residing in Florence, Italy, but died suddenly of heart disease, on the 4th instant, while still two days' journey from his destination.

Thus has been gathered to his Fathers a patriarch of Pittsburgh, one who will be remembered and lamented by all our older citizens for his great and uniform purity, and all the proprieties of life, unobtrusive, gentle and humane, an intelligent, refined and courteous gentleman, much endeared to all who enjoyed his personal acquaintance. He was a life-long and most exemplary member of the Protestant Episcopal Church, and died in its communion and faith. Blessed are the dead who die in the Lord.

Mr. John Watt.

Our community yesterday lost one of its most esteemed and valuable members in the death of Mr. John Watt, which occurred at the resident of his son-in-law, Dr. Scott, on Penn avenue. The deceased had been ill for some time and his demise therefore, was not altogether unexpected, although it is none the less sincerely mournable. He had not fully reached the allotted period of life when he died, being in his sixty-first year, but his years had been well improved for the good of himself, his friends and the community in which he lived. He had been identified with the city's business growth for many years, and was one of that school of business men who consider honor and integrity in every transaction of more value than pelf dishonorably obtained. His energy, prudence, and industry, united to good business judgment, had gained him a goodly share of this world's goods, which came to him through a business career that was unsullied.

The deceased, while thus successful in the business world, was one whose presence was also welcome in the social circle and in the church of which he was a faithful and consistent member. His nature was one that endeared him to those with whom he became acquainted, and he was held in loving esteem by a circle of associates who thoroughly appreciated the sterling qualities of head and heart which moulded his character and made it one worthy of imitation. Such a life, full of "good words and works" is its own best eulogy.

ALLEGHENY COUNCILS.

Regular Meeting Last Night.

The Charles Street Contract—An Explanation—The Water Works—The Plan of Repairs Approved—City Officers' Salaries—A Proposed Reduction—General Routine Business.

A regular semi-monthly meeting of Allegheny Councils was held last evening.

SELECT COUNCIL.

JAMES McBRIER............President.
ROLAND T. WHITE............Clerk.

The following members were present: Messrs. Ackley, Bepler, Cochran, Day, Heagy, Hartman, Ousler, Ober, Patterson, Phillips, Reineman, Reed, Slack, Smith, Sweeny, Thomas, Voegtly, Zinkand, and President McBrier.

The minutes of the previous meeting were read and approved.

PETITIONS, &C.

Mr. BEPLER, a remonstrance against the approval of the report of the viewers on opening River avenue. Referred.

Mr. ACKLEY, a petition for lateral sewer in Western avenue. Referred.

Mr. HEAGY, a remonstrance against sewer on Western avenue. Referred.

Also petition from property holders on Outlet alley, for permission to grade that alley. Referred.

Also petition for gas lamp on Joint alley. Referred.

Mr. REINEMAN, petition from John Hawarth for permission to erect a frame stable on Troy Hill. Referred.

Mr. OBER, petition for wooden steps on Long Lane, from Spring Garden avenue to Hill street. Referred.

THE CHARLES STREET CONTRACT.

Mr. ZINKAND, a remonstrance against the action of the Street Committee in awarding the contract for grading and paving Charles street to the next lowest bidder, instead of to the lowest bidder.

Mr. PATTERSON, Chairman of the Street Committee made a statement in regard to the letting of that contract. He stated that the reason the contract was not awarded to Mr. Meyers, the lowest bidder, was because a contract was awarded to him some time ago, and for two months he did not commence work on the streets, and the first thing the committee knew he had sold out the contract, with all his horses and carts and had gone west. The committee did not intend awarding contracts to a contractor who lived so far away that he could not give his personal supervision to the work. For some time past the same contractor had been doing very poor work, and he wanted it understood that he would not assist in awarding contracts to such contractors. The remonstrance was referred to the Street Committee.

Mr. PHILLIPS, a remonstrance against widening Shady avenue. Referred.

NEW SURVEYS.

Mr. REINEMAN presented the report of the Survey Committee. The committee submitted the report of the Viewers on the opening of Graff street, and also the report of Viewers on the opening of Middle alley. Report received and Viewers' report on the opening of Graff street, laid over until the next meeting. The report of Viewers on Middle alley, was referred to the Engineer's office for one month.

THE STREET DEPARTMENT.

Mr. PATTERSON presented the report of the Street Committee. They submitted a resolution approving the plan of lots of Bakewell's heirs, except so far as regards California avenue.

Also, a resolution directing the Mayor to file the bond of the city to the amount of $20,000 in the Court of Common Pleas, to indemnify property holders on Charles street, against loss, for the reason that the report of the viewers on that street had not yet been presented and confirmed by Councils, so that the contractor can proceed with the work of improving that street at once.

The committee also submitted the agreement between the city and the P. F. W. & C. R. R., relative to the opening of Bidwell street, parallel with the railroad track to Washington avenue.

An ordinance accompanied authorizing the vacation of Bidwell street, from present terminus to Washington avenue, and providing for the opening of the street parallel with the railroad, the cost for opening and grading and paving the same to be paid by the railroad company.

Report received, resolutions adopted and ordinance ordered to be printed.

An ordinance for grading Spring alley was also ordered to be printed.

The same gentleman called up the ordinance for a boardwalk on Wickline's Lane. Lost.

Also, an ordinance for lateral sewer on Ferry Lane, from Hughes alley sewer to Kerr street. Passed.

Report of viewers on opening and widening of Federal Lane. Confirmed.

Mr. BEPLER, a resolution for gas lamp on Craig street. Referred.

Mr. HAITMAN, an ordinance for widening Woodland avenue. Referred.

THE C. C. BUSINESS

of last meeting was taken up, and all actions of that body concurred in except the following:

Ordinance fixing the places for holding the elections, passed in C. C. was taken up, and amended so as to change the place of holding the elections for the First district of the Seventh ward from Spring Garden avenue shool-house to the Troy Hill school-house on Clark street.

It was further amended so as to change the place of holding elections of the First district of the Tenth ward, from Elliott & Co's office to school-house No. 2 on Milroy avenue.

The ordinance as amended was then adopted.

Adjourned.

COMMON COUNCIL.

H. M. LONG............President
ROBERT DILWORTH............Clerk.

At precisely a quarter to eight o'clock a sufficient number of members had meandered into this branch to form a quorum, and when the roll was called the following members answered: Messrs. Agnew, Brown, Burton, Cochran, Eberhardt, Golden, Hare, Hastings, Hetzell, Johnston, Klicker, Price, Peters, Sholes, Seiling, Wettach, Walter, Wittmer, Wilson, and President Long.

On motion of Mr. Hastings, the reading of the minutes was dispensed with.

ROUTINE WORK.

Mr. HETZELL presented a petition for a water main on Carpenters Alley, Fourth ward. Referred.

Mr. AGNEW, petition from Walter Glass for abatement of water tax. Referred.

Mr. BROWN, petition from Mr. Klages for removal of nuisances caused by the storage of hay in a loft, next to his store, in Friendship Engine House. Referred

Mr. HETZELL, a remonstrance against change of line of Verner road, Seventeenth ward. Referred.

THE SALARY QUESTION.

Mr. PRICE presented an ordinance fixing the salaries of city officers on a new schedule. Referred to Finance Committee to be printed.

The ordinances fixed the salaries as follows:

Mayor	$1,200
Chief of Police	1,000
Captain of Watch	900
Lieutenants	$2.45 per day
Day Police	$2 per day
Night Police	$2.20 per day
Treasurer	3,000
Treasurer's Clerk	1,000
Controller	2,000
Controller's Clerk	800
City Engineer	2,000
Assistant in charge of streets	1,500
" " " " sewers	1,200
Other Assistants	1,000
Clerk in Engineer's office	1,000
Superintendent of Water Works	2,000
Engineer at Water Works	1,400
Assessor of Water Rents	1,500
Street Commissioner, each	1,000
City Assessor	500
Market Clerk	1,000
Market Sweeper	600
Market Constable	600
Weighmaster (Diamond)	1,000
Weighmaster (Second ward)	900
Chief Engineer Fire Department	1,500
Superintendent of Alarm	1,000
Foreman Fire Company	850
Engineer Fire Company	900
Firemen, Hosemen, Drivers	800
Clerks of Councils each	500
Clerk to Committees	700
Solicitors	500
Janitor	800
Messenger of Councils	600
Assistant Janitor	300
Health Officer	1,000
Measurer of Bark	1,000

The principal changes are in the Controller, Treasurer and City Engineer, each of whom are reduced $500. The Health Officer is reduced $200; the Superintendent of Fire Alarm increased $100. The new schedule to go into effect next year.

Also, ordinance abolishing the office of Meat Inspector. Referred to be printed.

Also, ordinance authorizing the Controller in January of each year to make an estimate of the supplies of stationery, job printing, coal, and other supplies that may be necessary for the year, and subsequently at his discretion when said estimates are approved by Councils to advertise for proposals for furnishing the same.

Mr. HASTINGS thought they were living up to the provisions of the ordinance, and the ordinance was not necessary. He moved to have it laid on the table. The motion was lost.

The ordinance was then referred to the Finance Committee.

Mr. BURTON, a resolution for gas lamp on River avenue. Referred.

Select Council business was then taken up and concurrences had in all business not otherwise noted.

THE WATER BASIN.

In the business called up from S. C. was the report of the Water Committee, recommending a certain plan for the repair and enlargement of the Water Basin. The report was accompanied by one resolution approving the plan, and another ordering the Controller to advertise for proposals to be submitted to Councils.

Mr. PRICE thought they had better postpone the adoption of any plan until they learned where the proposed new reservoir was to be located. The proposed work would cost from $25,000 to $40,000. Perhaps when the new reservoir was built they would not need this Troy Hill reservoir to be so large, and hence there was no use of spending money until they knew where they were to locate the new reservoir.

MR. JOHNSTON explained that the committee felt it necessary for immediate action. They had carefully considered the matter and thought the basin should be enlarged and repaired without a moments delay, and the plan of the engineer they thought answered the purpose.

MR. SHOLES, thought there was no use of putting any more money to patching up the reservoir. They must have a new one, and it was not good economy to keep throwing money away on the old reservoir.

MR. LONG explained that the basin as it was now did not answer the purpose. It leaked about half of the water that was put into it, and the city was liable at any time to be without a sufficient water supply. It *must* be repaired without delay. The basin by the proposed plan could be made to answer for the lower part of the city. Then they could build a new reservoir that was necessary for the upper portions of the city. This was exactly what was needed to furnish an ample water supply for all the city; but there should not be a moment's delay in repairing the present reservoir. The question of building a new reservoir for the hill districts had nothing to do with the repairing of the present reservoir, as some repairs would have to be made to the reservoir, or the city would some day find itself without a supply of water.

MR. EBERHARDT said the reservoir was in a leaky condition and did need some repairs, but he did not think they would go to such an expense as was contemplated by this plan. He thought the Superintendent of the Water Works could have the necessary repairs made without going into such an elaborate plan.

M. BURTON thought they might first receive proposals and find out the cost before approving the plan.

After some further discussion Mr. Price moved to lay the first resolution—on the adoption of the plans—on the table. Lost by a vote of 13 to 8.

The resolution was then adopted by a vote of 14 to 7.

The second resolution authorizing the Engineer to prepare the specifications, and the Controller to advertise for proposals, was then also adopted.

Mr. EBERHARDT presented an ordinance locating and fixing the width of Troy Hill Road at forty feet between Ohio and Perry streets. Referred.

Also, resolution for the reparing of the same. Referred.

Also, a resolution asking the Street Committee to take action on the petition for the appointment of viewers to assess damages and benefits on Troy Hill road. Referred.

The ordinance for the construction of a plank walk on Woodland avenue, Tenth ward, was in S. C. passed, but C. C. on motion of Mr. Golden laid it over.

The ordinance for improvement of Short alley, laid over in C. C., August 27, was again laid over.

Mr. LOCKHART offered a resolution for a flagstone crossing on Benton alley. Referred.

The report of the Viewers on Verner road, in S. C. approved, in C. C. was sent back to the Survey Committee.

Mr. KLICKER a petition for water main on Lincoln avenue, from Manhattan street eastward Referred.

TAXPAYERS' CENTRAL UNION.

Resolutions Adopted Regarding the City Government—The Abolition of the Board of Revision.

The Taxpayers' Central Union held a regular meeting yesterday afternoon, with Mr. Isaac Jones presiding, and A. P. Norton. Esq., acting as Secretary. Mr. Alex. King, from the Finance Committee, reported that they had raised a little money, which had been used in feeing lawyers to attend to the legal business of the Union. He also submitted the following resolutions:

Resolved, That the only safe rule of official duty is a strict observance of the laws and ordinances; a disregard of this rule in the past, and the disposition to conceal the city's true financial condition, and run the city government on the proceeds of water bonds, and other obligations not intended for the purpose, was the means of introducing gross irregularities and greatly aggravating our present difficulties.

Resolved, That the temporizing policy and disregard of law by the city authorities, as evidenced by awarding contracts to favorite contractors instead of the lowest responsible bidder, and flooding the money market with gold interest bearing bonds, in violation of the constitutional limitation, and in the absence of legislative authority, is calculated to destroy all confidence in city government.

Resolved, That such a policy on the part of the city government will devolve on the tax-payers the necessity of resisting payment of all unlawful claims and obligations, it being the legal duty of purchasers of such obligations to inquire under what authority they are issued.

Resolved, That a greater amount of bail should be required of city officials having the duty of issuing city bonds and controling city debts, and they should be held to a strict accountability for excessive and illegal issues.

Resolved, That the City Attorney should be elected by the people and not by Councils. This is necessary to the independence of the office, for the proper administration of the law and defence of the legal rights of the citizens, and to prevent it becoming a shield for ring abuses.

The resolutions were adopted, and Mr. Powers, from the committee appointed to interrogate Legislative candidates, made a speech of some length concerning the capabilities of certain aspirants for Harrisburg honors, and the necessity of teaching the "ring" that none but good men should be put up.

Judge Mellon thought it would be advisable to hold a meeting and consider the character, past record, fitness, &c., of the candidates on both tickets, and select from them such gentlemen as are most in accord with the objects of the Taxpayers Union, and then support them at the polls.

Hon. T. J. Bigham, Commissioner of Statistics of this State, was called upon and made a few remarks in regard to taxation. He thought probably that under the new Constitution the entire tax system of the State would have to be revised, and that the ensuing Legislature would likely appoint a Commission for that purpose. He did not wish to slander Legislators but he thought few of them understood the difficult and complex question of taxation as thoroughly as they should.

On motion of Mr. King, Mr. Bigham was elected a member of the association.

Mr. O'Keefe submitted a resolution requesting Councils to abolish the Board of Revision, thereby saving the city $25,000 per annum.

Dr. Gallagher favored a reconstruction of the ordinance creating the Board of Revision in such a way as to have but five Revisors, who shall not be politicians. A motion to that effect, made as a substitute for Mr. O'Keefe's resolution, was lost, and after some further discussion, during which Mr. Brown stated that in his opinion the city could not get along without such a Board, the matter was postponed until the next meeting.

OUR TIDIOUTE LETTER.

Result of the Grant Hunt—An old Trick

Correspondence of the Pittsburgh Gazette.

TIDIOUTE, October 20, 1874

In my last I mentioned a grand hunt that was shortly to come off. The evening before the day set for the hunt the parties intending to take part therein assembled at the Shaw House, where rules were adopted governing the hunt, after which captains were chosen, viz.: W. H. Mabie and W. F. Weible, who, after tossing for first choice, proceeded to choose their men alternately from the assembled sportsmen. Each company consisted of fifteen men. Next morning some of the ambitious sports were out as early as four o'clock, A. M., in order to get a good start. During the day the reports of blunderbusses could be heard upon every hill within miles of the town. By seven P. M. the last of the weary hunters came in staggering under the weight of a few red squirrels, while some had nothing but empty game bags to exhibit; others, however, had enough game to make up for their less fortunate comrades. The trophies brought in varied from a deer to a flicker, the score standing at 367 for Capt. Mabie's side, and 242 for Weible. Capt. Mabie, therefore, carried off the honors and "Mabie, he didn't feel happy over the result; but I think, Mabie" he did. After the count was rendered, the whole party proceeded to discuss the excellent supper got up by mine host, Perry Shaw, and paid for by the losing side. While the hungry hunters were attending strictly to business, the Rescue Cornet Band drew up in front of the hotel and proceeded to treat the company to some very fine music. Capt. Mabie then stepped to the front, and with a smile that was "childlike and bland" invited the members of the band to come in and take supper, which they did. Soon after all parties adjourned to their homes, doubtless well pleased with their day's sport.

The citizens of this place are well known for their enterprise. In illustration of that fact we have the most decidedly enterprising and persevering anti-local optionist here that is to be found in the State. I refer to one Green, the party who, last term of Court, through the gentle persuasions of Judge Whetmore, kindly donated some three hundred dollars to the school fund of the town as a peace-offering for having violated the law. Repenting of his generosity, he got to thinking how he might regain his money, and hit on the following method. [It is claimed, however, that the invention is not his, but that of a limb of the law residing here, who has a hankering after his toddy these frosty mornings.] That part of the bar-room containing the bar is partitioned off from the balance of the room. In this partition is an opening in which there is a horizontal wheel about the size of an ordinary cheese box, made of tin, with compartments. Placed over it is a placard reading as follows: "Put pour money in the wheel and ask for what you want." It then goes on to give the price of different drinks that may be had there. The object is to prevent the party getting the liquor from knowing from whom he gets it. For ways that are dark and tricks that are vain this heathen rumseller is certainly peculiar.

Let the Temperance Committee rise and explain.

The Crusade Work.

A mass meeting under the auspices of the Woman's Christian Temperance League of Allegheny, will be held in Crusade Hall, North avenue, this evening at 7½ o'clock.

A Bible Class for adults will be started on Sabbath afternoon at 2 o'clock. An excellent teacher has been obtained, and young men and women who do not attend elsewhere will find they can spend a profitable hour there.

The women have also in contemplation the starting of an industrial school on Saturday afternoons.

BREVITIES.

Paragraphic Pencilings of Passing Events.

····The United States Grand Jury will visit Dixmont to-day—not to stay though.

····Business is dull among the Aldermen out Penn avenue.

····Furs are reported lower in price this season than for many years.

····The refiners expect to have their pipe line laid within ninety days.

····The West End station house, containing eight cells will soon be completed.

····An eclipse of the moon will take place Sunday morning between 12.22 and 2.13 o'clock.

····The "horse hash" case will be considered by Mayor Fleming to-day, after his matutinal meals.

····Fifteen thousand gross of fruit jars were shipped by Messrs. Cunningham & Ihmsen this season. Their orders are as brisk as ever.

····Our lady readers are referred to the "Opening" advertised in this day's GAZETTE, at the popular Millinery Establishment of Mrs. M. Christy, No. 211 Penn street.

····In the District Court yesterday the jury were only allowed twenty minutes for dinner.—the Judge in granting the time stating that twenty minutes did not mean twenty-one.

····It is now thought that the loss by the robbery at Erwin's dry goods store will be less than $5,000. The clerks were busy Wednesday evening and yesterday taking stocks.

····Prohibition meetings were held last evening at Torrence station, Mt. Washington, in the Allegeny Diamond, Sharpsburg, and at the foot of the Alliance stairs on Sixth street.

····The new incline railway being built by the Castle Shannon Company, will be ready for the transportation of passenger cars to and from the top of the hill, South Side, in a few weeks.

Being unable to furnish five hundred dollars bail, Patrick Cady was committed to jail yesterday by acting Mayor McMasters to answer at Court a charge of larceny of $109.30 from Pat. Connors

····A political temperance meeting was held in the Allegheny Diamond last night. Mr. George F. Turner presided, and addresses were made by Mr. Powell, Rev. Mr. Payne, Miss Renwick and Mrs. Matchett.

····Mr. T. S. Baird, of Allegheny, fell through a hatchway at Reizenstern's queensware store, on Federal street, Allegheny, on Wednesday, and very severely sprained his ankle. He was able to be about yesterday on crutches.

····Yesterday Sheriff Hare and his force were kept unusually busy. One hundred and eleven civil inquisitius were issued,—twenty-one of which were against contractor Howard, late boss of the job at the new Water Works.

····The Road Committee visited Second avenue extension again yesterday afternoon and will hold a meeting this afternoon for the purpose of finally deciding the question regarding the ceding of a portion of the avenue to the Connellsville railroad.

····One of the buildings at the camp ground in Castle Shannon has been converted into a chapel for public worship every Sabbath. The first religious services will be inaugurated next Sunday, when a sermon will be preached by Rev. Hull of the Pittsburgh Conference.

····The Buffalo Valley Road has been opened for travel. It is a branch of the Connellsville running from Garret to Berlin, in Somerset county, a distance of nine miles, and was built to develop the mineral and agricultural resources of that section. The excursionists who participated returned last night.

····On Wednesday a brakeman named Haight, in the employ of the Pennsylvania Railroad Company, while engaged in shifting the cars of a freight train on Liberty street, near the grain elevator, had his right hand caught between the bumpers and so badly crushed as to render it necessary to amputate three of his fingers.

····Mayor Fleming chose to dispense with the company of Mr. H. K. Tyler, in his private office, and so helped the unwelcome visitor out. The ejected party thinking this expression was accompanied by more force than was necessary, has entered suit before Alderman Bailie, and the Chief Magistrate is to be called upon to answer.

····The will of Michael Bach, of Allegheny city, was probated yesterday. Decedent bequeaths to his wife a house and lot located No. 32 Green street, in the Third ward, Allegheny, together with all the household property. The balance of his property is divided among his three children. John G. Walther is appointed executor, and the instrument bears date of March 25, 1872.

····Messrs. James Veech, John H. Baily and Reuben Miller, who were appointed by Court to audit the accounts of the City Hall Commission, held their initial meeting yesterday morning and organized by electing Mr. Veech chairman, and Mr. Miller secretary. The members then qualified each other, but as no persons were present or papers submitted to commence work on they adjourned to meet again on the 12th of next month.

····The Fire Departments of Pittsburgh and Allegheny were inspected yesterday by Hon. Charles A. Otis, Mayor of Cleveland and President of the Board of Fire Commissioners, Mr. Beech, Secretary of the Commission, with Messrs. Coffinberry, Van Tassell and Luckenmier, Commissioners, and Captain James H. Hill, Chief Engineer of the Fire Department. They were escorted around by Chief White and Assistant Hamill of this city and Chief Crow of Allegheny.

····The Coroner's jury in the case of the girl Mary Loichot, found lying dead in the swamp near Corry a few days ago, have thus far elicited nothing that throws light on the tragedy. There appears to be no doubt but that the unfortunate girl was brutally murdered by men of the most ruffianly stamp. The reward of $500 offered for the arrest and conviction of the perpetrators, will undoubtedly stimulate an active search that may result in success. The town is very much excited over the matter.

····Mr. George M. Evans, of Pittsburgh, well known throughout this city and the West, has come into some prominence as the inventor of a tool for carpenters, known as Evans' Bench Vise. It was on exhibition at the Cincinnati Exposition, and won great praise from practical men. Mr. Evans comes from a race of inventors, his father, Mr. George Evans, having designed the Crane plow, and his grandfather, Mr. Oliver Evans, of Philadelphia, being known as the inventor of many improvements in locomotives. This latest invention from an inventive family, promises to come into general use.

PERSONAL.

***Capt. John S. McMillin was again son-struck on Tuesday last, at his home in Mount Washington, and still he is happy.

***Mr. P. W. Seibert, who but recently arrived home from Iowa with a bride, was serenaded last night at his residence on Butler street, in the Eighteenth ward, by the Dolly Varden band of Company "B," Duquesne Grays.

WHAT IS LIBEL?

Judge Collier's Charge to the Jury in the Meller Case.

Yesterday morning Judge Collier delivered the charge to the jury in the case of S. T. Meller against the *Leader* Publishing Company for libel. Meller is proprietor of an intelligence office. The defence was that the alleged libel consisted merely in a correct report of the hearing in a criminal information made before the Mayor against him.

In charging the jury Judge Collier said that if there was a hearing, and if the jury believed that the article was a fair and correct account of the hearing before the Mayor, then they should hold the defendants responsible for nothing, as they had a perfect right to publish such an account; but if they believed the article to have highly colored, or colored at all, it was libellous and to what extent was a matter left to the jury to decide. As to the article being malicious, the Court explained that the defendants had published in reply to the alleged libel an article prepared by the plaintiff's own counsel, and afterwards told Mellor that their columns were open to him for anything he wished to write in his own defence; but Mellor was not satisfied, and wanted money. This, the Court said does appear malicious. The matter is an important one, continued the Court, important to us all as citizens, for when newspapers go outside of the routine of news to criticise the business of citizens, they have a terrible power. But then we must remember in what an unfortunate condition we should be without them. With the newspapers banished from our midst, we should soon return to the condition of the people of the dark ages. Then we should remember in cases of this kind, that everything which is a great power for good, may be converted into an equally great power for evil. After again impressing the jury with the fact that the case revolved on the question whether or not the article was a fair and correct report of the hearing the jury retired.

The jury after being out until afternoon returned with a verdict in favor of the plaintiff for six and a quarter cents damages. He brought suit for $6,000.

New Jewelry Store.

Although the inauguration of new business enterprises is very rare since the panic, yet occasionally we find parties of sufficient pluck and nerve to come before the public, and as a rule these same parties are mariners who will safely guide the ship on stormiest seas. Among those who have determined to merit success are Messrs. J. M. Moffat & Co., who have opened a new jewelry store, at No. 123 Fifth avenue, and stocked it to repletion with the finest qualities of a general assortment of goods in their line, consisting in part of elegant gold and silver watches, chains of tasteful design, clocks of plain, ornamental and antique pattern, solid silverware of rare and curious workmanship, silver-plated ware of graceful figure and massive proportions and all the other et ceteras that go to make up a well furnished jewelry establishment. While their stock is fully up to all the requirements that constitute excellence, yet great bargains are offered their patrons, as they are determined to conduct their business on the quick sale and small profit system, and parties will find it to their profit to give Messrs. Moffat & Co. a call at 123 Fifth avenue.

Persons engaged during the day have the opportunity of acquiring a thorough knowledge of Book-keeping, Penmanship, Arithmetic, etc., in the evenings. No class system. Individual instruction. Full corps of teachers. For circulars apply at the office of Duff's college, 49 Fifth avenue.

DAYLIGHT ROBBERY.

A Man Relieved of $250 While on a Spree.

Yesterday afternoon a stranger, whose name we were unable to learn, was robbed of about two hundred and fifty dollars in the vicinity of the Union Depot. It appears that the unfortunate, together with his wife, had come into the city sometime during the day, that when they left home, the husband had placed in his pocket all the money he possessed, which according to the wife's statement was all they had been able to save after two or three years of hard work and self denial, that they intended seeking a home possibly in the western country, but before the time arrived for the departure of the train the husband got on a spree and met with the loss as above stated. It is said he attempted to go out on the platform to get on board a train, but was refused admittance without a ticket, that at this point he drew out of his pocket all his money and on failing to get through to the cars, went back through the depot hall and from there across Liberty street in the vicinity of the Rush House. Being in a drunken condition, it was supposed that he had been followed by a gang of thieves who took advantage of his unfortunate condition, and who committed the robbery so quickly that it was impossible to detect them in their work. After learning of the loss the wife seemed to be in great trouble, and was indeed an object of pity. A number around the depot took in her sorrowful situation, and extended their sympathies, but with all, the treasure was gone, and no clue was had to the merciless thieves. We were unable to learn whether or not the unhappy couple intended to prosecute their journey, but in all probability they would be compeled to abandon it.

Led Astray—In Allegheny.

There are many ways in which people may be led astray, but we are not leading our readers astray when we invite them to visit and inspect the immense assortment of boots, shoes and gaiters received by Mr. R. Taggart, of 129 Federal street, Allegheny, who is giving his patrons the benefit of extremely low prices. Boots and shoes sold for the cost of the material, 20 per cent. saved. From 20 cents to $2 saved on every pair. Retailed at wholesale rates. What more can you ask?

Who Will it Be?

The postponement of the Gift Concert of the Kentucky Public Library to November 30th, 1874, was resolved upon to make a full drawing a certainty. There will positively be no further postponement, and the great prize will be the magnificent sum of $250,000. Who will it be? What a pestered man Gov. Bramlette, of Louisville, business manager, would be, if the people supposed he could tell!

AMUSEMENTS.

Pittsburgh Opera House.

Another large house greeted Mrs. Bowers last evening in her reappearance as *Armande Chandoce* in "Led Astray," and the gifted actress in her charming rendition of the character won nothing but praise and unlimited applause. Miss Katie Baker as *Mathilde* and Mr. Egbert as *Hector*, doubtless felt themselves well rewarded by the hearty laughter they created by their exhibition of lover-like coyness and shy simplicity in the scene where *Rodolphe* joins their hands and consents to their marriage. Mr. Price had somewhat of a swell character to sustain in his personation of *Mount Gosline* and he did it admirably. Mr. Owen's *Major O'Hara* was good, and all the balance of the company acquitted themselves with honor and credit.

This evening "Mary Stuart" will be produced with Mrs. Bowers in the title role. The mere mention of the fact that she will appear in this, one of her best and greatest representations, should secure her a full house.

Fifth Avenue Theater.

The change of programme last night, and the appearance of Tony Denier and his troupe in new comic pantomines, &c., drew an immense house, and created just as much fun as ever. Tony's fund of amusement is inexhaustible, and he retails it in such unexpected ways and times that it is made doubly humorous.

Library Hall.

Rose Wood and Lewis Morrison, supported by the Sherry Dramatic Combination, will appear on Monday evening next, at Library Hall, in the play of "Rose; or the Mystery of the Deserted House." This drama was written by Celia Logan expressly for the two leading characters, and is quite well worked up, possessing a number of stunning situations. It has been produced in a number of our large cities and met with success.

The Library Course.

The sale of reserved seats for the Library Course—of which there are but two hundred and twenty-six set apart in section A.—took place yesterday morning, and two hundred were sold in less than an hour. The price was $6 each. The sale of season tickets without reserved seats was also taken up, and a sufficient number sold to indicate that the season would be pecuniarily as successful as it will be enjoyable in a literary way. We are glad to note that the efforts of Capt. Herbert and his coadjutors are rewarded with such evidences of appreciation.

Cantatas.

The cantatas of "Laila" and the "Crown of Reward" will be given in Masonic Hall, Allegheny, next week (on Tuesday and Thursday evenings), for the benefit of the Sandusky street Baptist Sunday school. The entertainments are under the direction of Miss Ella Humberstone, who will be assisted by Miss Maud Hamilton and a chorus of twenty-five children's voices. The preliminary drill and the efficiency secured give promise of most enjoyable entertainments.

Prof. Kidd.

The success which attended the elocutionary entertainment given by the great elocutionist, Prof. Kidd, at the Butler street M. E. church, last Saturday evening, has induced a repetition of the entertainment, which will take place in the church this evening. If you wish to enjoy an evening with "Poets, Orators and Humorists," drop in at the church.

Musical and Dramatic Notes.

TWENTY-TWO theatres are in full swing in the French capital.

THE irrepressible offspring of Madame Angot turns up in the most out of the way places. The last is Barcelona, Spain.

JENNY LIND, now Madame Goldschmidt, has been singing again, not exactly in public, but before a number of the English Earl of Leven's tenants at Glenferness House, who had been invited to hear her.

THE Wooster *Republican* says: "Miss Minnie Wallace, as Affray, is excruciatingly funny, and most exquisitely piquant. Explosiveness sits well upon her, while her ghostly fear and fits of insubordination and submission were neatly and most artistically delivered." A rather libellous style of criticism.
